COMPLAINT INVESTIGATION #30404 and a revisit were completed at Fairpark Healthcare Center on September 6, 2012; following acceptance of an Allegation of Compliance to remove the Immediate Jeopardy at F-157 and F-250, Scope and Severity level "I," and F-223, F-226, F-490, and F-520, Scope and Severity level "K." The revisit revealed the corrective actions implemented August 30, 2012, removed the Immediate Jeopardy, but non-compliance continues at a "D" level Scope and Severity for F-157 and F-250; and at an "E" level for F-223, F-226, F-490, and F-520.

The facility is required to submit a plan for correction for the Immediate Jeopardy tags lowered in scope and severity.

A facility must immediately inform the resident; consult with the resident's physician; and if known, notify the resident's legal representative or an interested family member when there is an accident involving the resident which results in injury and has the potential for requiring physician intervention; a significant change in the resident's physical, mental, or psychosocial status (i.e., a deterioration in health, mental, or psychosocial status in either life threatening conditions or clinical complications); a need to alter treatment significantly (i.e., a need to discontinue an existing form of treatment due to adverse consequences, or to commence a new form of treatment); or a decision to transfer or discharge the resident from the facility as specified in §483.12(a).
### STATEMENT OF DEFICIENCIES AND PLAN OF CORRECTION

</tbody>
</table>

The facility must also promptly notify the resident and, if known, the resident's legal representative or interested family member when there is a change in room or roommate assignment as specified in §483.15(e)(2), or a change in resident rights under Federal or State law or regulations as specified in paragraph (b)(1) of this section.

The facility must record and periodically update the address and phone number of the resident's legal representative or interested family member.

This REQUIREMENT is not met as evidenced by:

Based on medical record review, review of the facility investigation, review of a sexual assault forensic report, observation, and interview, the facility failed to immediately notify the physician of a positive finding reported to the facility on August 2, 2012, from a sexual assault forensic report obtained after an alleged rape on June 16, 2012, for one Resident (#1) of twelve Residents reviewed. The facility's failure to notify the physician immediately prevented the physician from being able to speak with the resident and/or the resident's family about treatment or potential treatment for sexually transmitted diseases (STDs) that may have been transmitted during the assault, for one Resident (#1) of twelve Residents reviewed, placing Resident #1 in immediate Jeopardy (a situation in which the provider's noncompliance with one or more requirements of participation has caused, or is likely to cause, serious injury, harm, impairment, or death to a resident).
Continued From page 2

The facility provided a Credible Allegation of Compliance on August 30, 2012. A revisit conducted on September 8, 2012, revealed the corrective actions implemented on August 30, 2012, removed the immediate Jeopardy.

Non-compliance for F-157 continues at a "D" level citation (potential for more than minimal harm).

The findings included:

Validation of the Credible Allegation of Compliance was accomplished through medical record review, facility policy review, in-service reviews, and interviews with facility staff, including administrative staff.

Resident #1 was discharged to another facility on August 15, 2012.

The facility provided evidence the on-call physician was notified on August 15, 2012, and ordered testing for sexually transmitted diseases (STD's), to include HIV (Human Immunodeficiency Virus); Hepatitis B, A, and C; and RPR (Rapid Plasma Reagin). The tests were completed on August 17, 2012, and were negative.

The facility provided evidence of reviews of diagnostic test completed since June 15, 2012, to ensure the Residents' Physician had been notified in a timely manner.

The facility provided evidence of the revised policy, Notifications, to ensure the Residents'

program, review of facility policy, review of payroll
hours, review of an interview schedule, review of
a sexual assault forensic report, observation, and
interview, the facility failed to protect one
Resident (#1) with Alzheimer's Disease (a
common type of Dementia, in which a loss
of mental ability is severe enough to interfere with
normal activities of daily living) from sexual abuse
of twelve Residents reviewed. The facility's failure
to prevent sexual abuse and failure to
immediately implement interventions to protect
residents from the potential of the abuse
reoccurring placed all Residents with Dementia in
Immediate Jeopardy (a situation in which the
provider's noncompliance with one or more
requirements of participation has caused, or is
likely to cause, serious injury, harm, impairment,
or death to a Resident).

The facility provided a Credible Allegation of
Compliance on August 30, 2012. A revisit
conducted on September 6, 2012, revealed the
corrective actions implemented on August 30,
2012, removed the Immediate Jeopardy.

Non-compliance for F-223 continues at an "E"
level citation (potential for more than minimal
harm).

The findings included:

Validation of the Credible Allegation of
Compliance was accomplished through medical
record review, observation, facility policy review,
in-service reviews, and interviews with Residents,
facility staff, including administrative staff and
security guard staff.

### Continued From page 6

Observation of the 100 hall Medication Administration Record confirmed a copy of Residents' care plans who are at high risk for potential abuse.

Observation of the Certified Nursing Assistant Flowsheet book confirmed a copy of Residents' care plans who are at high risk for potential abuse.

Observation of the front lobby confirmed a security guard was constantly present except for breaks, which are covered by facility staff. Visitors were observed to sign-in on the visitor's log upon entering the facility; and sign-out upon exit. When the front door is locked down, beginning at 6:00 p.m., the security guard makes random, periodic rounds inside from the front lobby to the courtyard door; outside rounds are made around the building, to include the inside and outside of the courtyard. The security guard confirmed routine, timed, rounds are avoided, to ensure a pattern is not established and discovered by a potential perpetrator.

Observation of the service hall entrance confirmed the doors were locked and required staff to open the doors for vendors from the inside. Review of the vendor sign-in sheets revealed the sheets were being completed according to policy.

Observation of the courtyard door confirmed codes are required to enter and exit. Continued observation confirmed staff covered the code pad to prevent unauthorized individuals from obtaining the code.

### Notes

This Plan of Correction is the center's credible allegation of compliance.

Preparation and/or execution of this plan of correction does not constitute admission or agreement by the provider of the truth of the facts alleged or conclusions set forth in the statement of deficiencies. The plan of correction is prepared and/or executed solely because it is required by the provisions of federal and state law.

Relations Coordinator
Facility policies and procedures were reviewed by the Administrator, Director of Nursing and Director of Clinical Operations on 8/24/12. Two minor changes were made to the written policy and procedures. On 8/24/12 an Addendum to Facility's Abuse Prohibition Policy and Procedures was made to clarify the term “visitors” to include both family members as well as other professional consultants or visitors such as but not limited to Paramedics, EMT's, Radiological Technicians, Laboratory Technicians, Physicians, Nurse Practitioners, clergy, attorneys, and legal representatives. On 8/30/2012 the policy on “Notification” was amended to add that physicians will not be notified for lab test results or other test results received from another laboratory or healthcare site that the resident was seen. The Administrator conducted in-services for facility staff on definitions of abuse, recognizing signs of possible abuse, protection of resident, Elder Abuse Act. These in-services were conducted beginning on 7/30/12. 7/31/12, 8/9/12, 8/22/12 and 8/24/12 for facility staff. Staff who are on leave, PRN, etc. will not be allowed to return to work unless receiving the same in-service.

The comprehensive practice for alleged abuse events will include documentation of the investigation on the “Alleged Abuse Investigation Worksheet”. This worksheet identifies details of the incident, lists all possible witnesses, documents witness interviews, and identifies actions taken to prevent resident from a re-occurrence. Upon notification of an alleged abuse, the licensed nurse immediately ensures the safety of the resident and contacts the Administrator and Director of Nurses who will return to the center to conduct the investigation and utilize this worksheet. In the event that the Administrator or Director of Nursing are not available to conduct the investigation immediately, the back up investigators will include the Assistant Director of Nurses, the RN Case Manager, MDS coordinator and/or the Director of Social Services.

The District Director Clinical Operations conducted an in-service on 8/25/12 to the above listed potential investigators on proper completion of this worksheet. On August 6 the facility converted a Performance Improvement Security Group meeting. The membership of the Security Group are: Maintenance Director (Plant Ops Manager), Administrator, Director of Nursing, Activity Director, Staff Development Coordinator, Housekeeping Supervisor and Customer Service (Patient Relations) Coordinator. At this meeting enhanced security measures that could be put in place were identified. The lock codes were changed on 8/27/12 for the main entrance, the vending service entrance and the court yard entrance. Exit codes were also changed and are different than entrance codes. Door codes will be changed every 30 days or more frequently if the code is compromised. The court yard gate will remain locked at all times unless under direct observation i.e., opened to bring in or remove materials such as lawn care equipment, yard debris, etc. The maintenance director or maintenance assistant will be responsible to unlock/lock and monitor gate during this type of activity. The key is secured in the maintenance office. Only Maintenance and Administrator have access to the key. The service door, which is for staff and vendor access only, is locked 24 hours a day 7 days a week. Staff may access code to exit and enter. Vendor/delivery personnel must ring bell and have staff open the door. The staff who opens the door is responsible for having the vendor sign-in and sign out. The vendor sign in sheet is located at the delivery entrance. The Administrator, Maintenance Director, Director of Nursing, Business Office Manager, Asst. Director of Nursing or assigned week-end duty managers will monitor the vendor logs daily to ensure that vendors are signing in and out. Windows and access were checked from the exterior on Aug 16, 2012 and found to be secure by the maintenance.

<td>This Plan of Correction is the center's credible allegation of compliance. It preparation and/or execution of this plan of correction does not constitute admission or agreement by the provider of the truth of the facts alleged or conclusions set forth in the statement of deficiencies. The plan of correction is prepared and/or executed solely because it is required by the provisions of Federal and state law. The director, To make resident room windows so that they cannot be opened from the outside by an intruder, wood dowels were placed in the inside slides tracks to prevent the windows from opening greater than 6 inches on August 14, 2012. The facility has purchased window locks for the resident room windows and after approval from the State of Tennessee, Health Care Facilities Engineering were installed on 9/13/2012. All non-resident room windows are currently secured by an inside lock. The maintenance director, maintenance assistant, assigned weekend duty manager are checking the resident room windows daily to validate the current safety device is in place. Currently there are 3 cameras attached to a motion detector that records when there is movement detected. The cameras visualize the front entrance (camera installation 3/10/2012), the vendor entrance (camera installation began 8/23/2012 and completed 9/1/2012), and the employee locker room (camera installed in 2010). This recording will provide the facility with evidence to review if there are any events such as employee theft, or other events that occurred, it's intent is not to use as real time monitoring but provide a retrospective review. This is another mechanism for monitoring the compliance of the visitor and vendor sign in/out process. Results of daily review of the recordings will be reported in the weekday morning meeting. At the present time it is reviewed daily by the maintenance director (Plant Operations Manager), or the Administrator, Director of Nursing, Assistant Director of Nursing, Business Office Manager, 3 Business Office Assistants, Activity Director, Activity Assistant, Director of Social Services, Director of Admissions, Director of Medical Records and Data Entry Clerk. It is possible to watch the camera real time if circumstances warrant. The front entrance is locked down beginning at 6 pm. Visitors need to ring the bell and security personnel or staff respond to allow visitors to enter and exit the facility. A &quot;Visitor's log&quot; placed at the receptionist area.</td>

**Requirements:**
- The facility must develop and implement written policies and procedures that prohibit mistreatment, neglect, and abuse of residents and misappropriation of resident property.
- This requirement is not met as evidenced by:
  - Based on medical record review, review of the facility investigation, review of facility training program, review of facility policy, review of payroll hours, review of an interview schedule, review of a sexual assault forensic report, observation, interview, and review of video surveillance, the facility failed to thoroughly investigate and implement interventions to protect one Resident (#1) with Alzheimer’s Disease (a common type of Dementia, in which a loss of mental ability is severe enough to interfere with normal activities of daily living) from sexual abuse of twelve Residents reviewed. The facility’s failure to follow facility policy to thoroughly investigate and implement interventions immediately to protect the Resident placed Resident #1 and all Residents with Dementia in Immediate Jeopardy (a situation in which the provider's noncompliance with one or more requirements of participation has caused, or is likely to cause, serious injury, harm, impairment, or death to a Resident).
{F 226} Continued From page 9

The facility provided a Credible Allegation of Compliance on August 30, 2012. A revisit conducted on September 8, 2012, revealed the corrective actions implemented on August 30, 2012, removed the Immediate Jeopardy.

Non-compliance for F-226 continues at an "E" level citation (potential for more than minimal harm).

The findings included:

Validation of the Credible Allegation of Compliance was accomplished through medical record review, observation, facility policy review, in-service reviews, and interviews with Residents, facility staff, including administrative staff and security guard staff.

Resident #1 was discharged to another facility on August 16, 2012.

The facility provided evidence Residents and families of non-interviewable Residents were interviewed for allegations of abuse; no abuse was alleged.

The facility provided evidence the Interdisciplinary Team assessed, identified, and updated care plans of Residents who may be at a higher risk for abuse.

The facility provided evidence of updated background checks on all male staff except two, with no negative findings. The delay in the two background checks is due to previous
Continued from page 10, out-of-state residents, and the Administrator confirmed the results are expected at any time.

The facility provided evidence of around-the-clock interim security personnel effective August 30, 2012, through September 4, 2012. A contract for around-the-clock security personnel was obtained effective September 6, 2012, and the contract does not identify a termination date.

The facility provided evidence of a revised policy, Abuse Prohibition.

The facility provided evidence a Security Workgroup had been developed to ensure enhanced security measures were identified and implemented.

Observation of the 100 Hall Medication Administration Record confirmed a copy of Residents' care plans who are at high risk for potential abuse.

Observation of the Certified Nursing Assistant flowsheet book confirmed a copy of Residents' care plans who are at high risk for potential abuse.

Observation of the front lobby confirmed a security guard was constantly present except for breaks, which are covered by facility staff. Visitors were observed to sign in on the visitor's log upon entering the facility; signage upon exit. When the front door is locked down, beginning at 6:00 p.m., the security guard makes random, periodic rounds inside from the front lobby to the courtyard door; outside rounds are made around the building, to include the inside

This Plan of Correction is the center's credible allegation of compliance.

Preparation and execution of this Plan of correction does not constitute admission or agreement by the provider of the truth of the facts alleged or conclusions set forth in the statement of deficiencies. The Plan of correction is prepared and/or executed solely because it is required by the provisions of federal and state law.

the facility. A verbal recommendation from the officer was for the facility to hire a security guard pending the outcome of the police investigation. The facility was advised of the need to enhance the facility's security measures surrounding visitors sign in procedures, and provide additional security support until a perpetrator is identified and taken into custody. The center has obtained security personnel through the Blount County Sheriff Department starting 8/30/12 until a replacement security contract is obtained. The facility will re-convene the Performance Improvement security workgroup at that time to evaluate the recommendations and present them to the Performance Improvement Committee for review and action. The members of the Security Workgroup are: Maintenance Director, Administrator, Director of Nursing, Activity Director, Staff Development Coordinator, Housekeeping Supervisors and Patient Relations Coordinator.

Facility policies and procedures were reviewed by the Administrator, Director of Nursing and District Director Clinical Operations on 8/30/12. Two minor changes were made to the written policy and procedures. On 8/21/12 an Addendum to Facility's Abuse Prohibition Policy and Procedures was made to clarify the term "violations" to include both family/friends as well as other professional consultants or visitors such as but not limited to: Pharmacists, P.T.'s, R.T.'s, laboratory technologists, Physicians, Nurse Practitioners, clergy, attorneys, and legal representatives. On 8/30/12 the policy on "Notification" was amended to add that physicians will be notified for lab test results or other test results returned from another laboratory or healthcare facility to the resident was seen. The Administrator conducted in-services for facility staff on definitions of abuse, recognizing signs of possible abuse, protection of resident, Elder Abuse Act. These in-services were conducted beginning on 7/30/12, 8/1/12, 8/9/12, 8/22/12 and 8/24/12 for facility staff. Staff who are on leave, PRN, etc. will not be allowed to

This Plan of Correction is the center's credible allegation of compliance:

Preparation and execution of this plan of correction does not constitute admission or agreement by the provider of the truth of the facts alleged or conclusions set forth in the statement of deficiencies. The Plan of correction is prepared and/or executed solely because it is required by the provisions of federal and state law. It is the intent of the provider to return to work until receiving the same in-service.

The comprehensive practice for alleged abuse events will include documentation of the investigation on the "Alleged Abuse Investigation Worksheet." This worksheet identifies details of the incident, lists all possible witnesses, documents witness interviews, and identifies actions taken to prevent residents from a reoccurrence. Upon notification of an alleged abuse, the licensed nurse immediately ensures the safety of the resident and contacts the Administrator and Director of Nurses, who will return to the center to conduct the investigation and utilize this worksheet.

In the event that the Administrator or Director of Nursing are not available to conduct the investigation immediately, the basic investigators will include the Assistant Director of Nurses, the RN Case Manager, MDS coordinator and/or the Director of Social Services. The District Director Clinical Operations conducted an in-service on 8/23/12 to the above listed potential investigators on proper completion of this worksheet. On August 6 the facility convened a Performance Improvement Security Workgroup meeting. The members of the Security Workgroup are: Maintenance Director (Plant Ops Manager), Administrator, Director of Nursing, Activity Director, Staff Development Coordinator, Housekeeping Supervisor and Customer Service (Patient Relations) Coordinator. At this meeting
enhanced security measures that could be put in place were identified. The lock codes were changed on 8/23/12 for the main entrance, the vendor/service entrance and the courtyard entrance. Exit codes were also changed and now different than entrance codes. Door codes will be changed every 30 days or more frequently if the code is compromised. The courtyard gate will remain locked at all times unless under direct observation I.e., opened to bring in or remove materials such as lawn care equipment, yard debris, etc. The maintenance director or maintenance assistant will be responsible to...
This Plan of Correction is the center's credible allegation of compliance.

Preparation and/or execution of this plan of correction does not constitute admission or agreement by the provider of the truth of the facts alleged or conclusions set forth in the statement of deficiencies. The plan of correction is prepared and/or executed solely because it is required by the provisions of federal and state law.

Unlock/lock and monitor gate during this type of activity. The key is secured in the maintenance office. Only Maintenance and Administrator have access to the key. The service door, which is the staff and vendor access only, is locked 24 hours a day/7 days a week. Staff may use access code to enter and exit.

Vendor/delivery personnel must ring bell and have staff open the door. Staff who opens the door is responsible for having the vendor sign in and sign out. The vendor sign in sheet is kept at the delivery entrance. The Administrator, Maintenance Director, Director of Nursing, Business Office Manager, Asst. Director of Nursing or assigned weekend duty manager will monitor the vendor logs daily to ensure that vendors are signing in and out. Windows and screens were checked from the exterior on Aug 16, 2012 and found to be secure by the maintenance director. To make resident room windows so they cannot be opened from the outside by an intrusive, wood dowels were placed in the inside sliding track to prevent the windows opening greater than 6 inches on August 14, 2012. The facility has purchased window locks for the resident room windows and after approval from the State of Tennessee, Dept. of Health, Health Care Facilities Engineering were installed on 9/13/2012. All non-resident room windows are currently secured by an inside lock. The maintenance director, maintenance assistant, assigned weekend duty manager are checking the resident room windows daily to validate the current safety devices in place.

Currently there are 3 cameras attached to a motion detector that records when there is movement detected. The cameras visualize the front entrance (camera installation 8/10/2012), the vendor entrance (camera installation began 8/30/2012 and completed 8/31/2012), and the employee locker room (camera installed in 2010). This recording will provide the facility with evidence to review if there are any events such as employee theft, or other events that occurred. Its intent

<td>F226 This Plan of Correction is the center's credible allegation of compliance. Preparing and/or execution of this plan of correction does not constitute admission or agreement by the provider for the truth of the facts alleged or conclusions set forth in the statement of deficiencies. The plan of correction is prepared and/or executed solely because it is required by the provisions of federal and state law. Is not to be used as real time monitoring but provide a retrospective review. This is another mechanism for monitoring the compliance of the visitor and vendor sign in/out procedure. Results of daily review of the recordings will be reported in the weekly morning meeting. At the present time it is reviewed daily by the maintenance director (Plant Ops Manager), or the Administrator, Director of Nursing, Assistant Director of Nursing, Business Office Manager, or Business Office Assistant, Activity Director, Activity Assistant, Director of Social Services, Director of Admissions, Director of Medical Records and Data Entry Clerks. It is possible to watch the camera real time if circumstances warrant. The front entrance is locked down beginning at 6 pm. Visitors must ring the bell and security personnel or staff respond to allow visitors to enter and exit the facility. A &quot;Visitor’s log&quot; placed at the receptionist area is monitored by video camera, facility staff and/or the security guard to ensure that visitors sign in and out. The administrator conducted in-services for staff on the facility’s updated security measures on August 18, 19, 21, 23, 24, and 28, 2012. Employees on leave of absence, vacation, etc., upon return will receive the same in-service on prevention measures by their department head or designee, prior to reporting to their job area. On August 23, 2012 the District Director of Clinical Ops conducted additional in-service training with Administrator, Director of Nursing, CIOE Manager, MDS Coordinator, Housekeeping/Laundry Supervisor, Activity Director, Social Worker and Asst. Director of Nursing on “Conducting an Investigation on an Allegation of Abuse” which included, but was not limited to, immediacy of investigation, notification, interviewing alleged victim, alleged perpetrator, interviewing witness including staff, resident, family members, etc. The maintenance director, Administrator, Business of Manager or assigned weekend duty managers will be responsible to view the video tape of the front lobby.</td>

(F 250) Continued From page 13
This REQUIREMENT is not met as evidenced by:

Based on medical record review, review of the facility investigation, review of facility policy, review of a sexual assault forensic report (Rape Kit), review of a facility training program, review of facility policy, and interview, the facility failed to provide medically-related social services for one Resident (#1) with an allegation of sexual assault, of twelve Residents reviewed. The facility's failure to follow facility policy to provide medically-related social services placed Resident #1 in Immediate Jeopardy (a situation in which the provider's noncompliance with one or more requirements of participation has caused, or is likely to cause, serious injury, harm, impairment, or death to a Resident).

The facility provided a Credible Allegation of Compliance on August 30, 2012. A revisit conducted on September 6, 2012, revealed the corrective actions implemented on August 30, 2012, removed the Immediate Jeopardy.

Non-compliance for F-250 continues at a "D" level citation (potential for more than minimal harm).

The findings included:

Validation of the Credible Allegation of Compliance was accomplished through medical record review, facility policy review, in-service reviews, and an interview with the Director of Social Services.

Resident #1 was discharged to another facility on August 16, 2012.

(F 250) This Plan of Correction is the center's credible allegation of compliance.

Preparation and/or execution of this plan of correction does not constitute admission or agreement by the provider of the truth of the facts alleged or conclusions set forth in the statement of deficiencies. The plan of correction is prepared and/or executed solely because it is required by the provisions of federal and state law.

any changes or decline in her mental or psychosocial well-being up to and including her day of discharge from the facility on August 16, 2012. Resident #1 was visited by the on-site psychologist Licensed Clinical Social Worker (LCSW) on June 23, 2012 and the resident declined to participate in an interview discussing the alleged incident. The result of (Licensed Clinical Social Worker) LCSW's assessment was that the Resident #1 had no change in behavior or mood at this point. After discussion with the Administrator and Director of Social Services, it was decided that the LCSW (Licensed Clinical Social Worker) would not further address the alleged sexual abuse with Resident #1 unless she wished to do so, or if Residence #1 had been assessed to have changes in mood and behavior.

An audit was conducted by VP Clinical Ops on August 30, 2012 of all events occurring from January 1, 2012 to August 30, 2012, no other allegations of sexual abuse had occurred. Interviewed residents and families of non-interviewed residents were questioned by the Administrator, Director of Nursing, Assistant Director of Nursing, Staff Development Coordinator, Business Office Manager, Activity Director, Social Services Worker, Admissions Coordinator, Medical Records, Infection Prevention, Certified Dietary Manager, Case Manager, MDS Coordinator, and Rehab Tech (Certified Nursing Aide), between August 23 and August 28, to determine; if there were any further allegations related to staff treatment, did residents feel they were treated with respect, had residents witnessed any unusual visitors, strangers or had concerns about any staff member? The interviews did not produce any other allegations of sexual abuse nor give potential leads for suspects. The facility did not re-interview staff members in August at the request of the local police department. The interdisciplinary team consisting of MDS coordinator, RN Case Manager, Social Worker, Activity
The facility provided evidence Residents and families of non-interviewable Residents were interviewed for allegations of abuse; no abuse was alleged.

The facility provided evidence the Interdisciplinary Team, including the Director of Social Services, assessed, identified, and updated care plans of Residents who may be at a higher risk for abuse.

The facility provided evidence in-services related to policies and procedures, Responding to and Investigating an Abuse Allegation, and related social work and/or psychological services in response to allegations of abuse.

Interview with the Director of Social Services confirmed the Director of Social Services had received in-services related to policies and procedures, Responding to and Investigating an Abuse Allegation, and related social work and/or psychological services in response to allegations of abuse. The Director of Social Services revealed, "I have learned a lot through this...I will ensure all Residents with an allegation of abuse receive the required medically-related social services."

The facility remains out of compliance at a "D" level until it provides an acceptable plan of correction and the facility's corrective measures could be reviewed and evaluated by the Quality Assessment/Performance Improvement Committee.

Director, Registered Dietician and Certified Dietary Manager identified the residents on 8/29/2012 who are at higher risk for abuse due to dementia diagnosis, frequent or no visitors, behavioral issues, or those who are bedfast and dependent on care. The interdisciplinary team met on 8/29 through 9/30/12 to identify care plan goals and interventions to assist in the prevention of abuse.

On August 23 & 27, 2012, the District Director of Clinical Ops conducted additional in-service training with Administrator, Director Nursing Service, Case Manager, MDS Coordinator, Housekeeping/Laundry Supervisor, Activity Director, Social Worker and Asst. Director Nursing Service on "Conducting an Investigation on an Allegation of Abuse" which included but was not limited to immediacy of investigation, notifications, interviewing alleged victim, alleged perpetrator, known, interviewing witnesses including staff, residents, family members, family members, etc. which included the facility Director of Social Services. On August 27, 2012, the District Director of Clinical Ops provided the Director of Social Services with additional in-service education on documentation of interviews, follow-up assessments, and referrals to physician and/or psychological services indicated. The Director of Social Services will be notified of any alleged reports of abuse by the Administrator, Director Nursing Service or Asst. Director Nursing Service. The Director of Social Services will follow procedures for "Responding to and Investigating an Abuse Allegation" when notified of an alleged abuse. These activities will include referring to appropriate psychological services, update care plan interventions as necessary for the resident of the IDT at the morning meeting (Mon-Fri), and documentation of the resident's psychosocial status and actions taken by the clinical personnel. The Administrator will monitor the Director of Social Services.

This Plan of Correction is the center's credible allegation of compliance.

Preparation and/or execution of this plan of correction does not constitute admission or agreement by the provider of the truth of the facts alleged or conclusions set forth in the statement of deficiencies. The plan of correction is prepared and/or executed solely because it is required by the provisions of federal and state law.

Service's performance to validate that medically related services are provided to the facility residents beginning 8/30/12 weekly X 4 weeks and then monthly X 1st Quarter and then quarterly. When there is an allegation of abuse, the DNS or ADNS will review the documentation of the services provided by the Director of Social Services during daily clinical rounding to validate that the psychosocial well-being of the resident is being assessed, care planned and with interventions appropriately implemented. The administrator will perform sample reviews of the Director of Social Services documentation monthly beginning 8/30/2012. The results of these audits will be reviewed at the facility monthly Performance Improvement meeting. Corrects or recommendations on the Director of Social Services documentation will be obtained and communicated by the administrator.
Continued From page 15

A facility must be administered in a manner that enables it to use its resources effectively and efficiently to attain or maintain the highest practicable physical, mental, and psychosocial well-being of each resident.

This REQUIREMENT is not met as evidenced by:

Based on interview, and observation of the physical plant, the facility failed to administered in a manner to protect one Resident (#1) with Alzheimer’s Disease (a common type of Dementia, in which a loss of mental ability is severe enough to interfere with normal activities of daily living) from sexual abuse; failed to ensure policies and procedures were followed for investigating and implementing corrective interventions to ensure Residents were protected from further abuse of twelve Residents reviewed.

The facility’s failure has caused sexual abuse of one Resident (#1) and has placed other Residents at risk for abuse. The facility’s failure placed all Residents with Dementia in Immediate Jeopardy (a situation in which the provider’s noncompliance with one or more requirements of participation has caused, or is likely to cause, serious injury, harm, impairment, or death to a Resident).

The facility provided a Credible Allegation of Compliance on August 30, 2012. A revisit conducted on September 6, 2012, revealed the corrective actions implemented on August 30, 2012, removed the Immediate Jeopardy.

Non-compliance for F 490 continues at an "E" level citation (potential for more than minimal

This Plan of Correction is the center’s credible allegation of compliance.

Preparation and/or execution of this plan of correction does not constitute admission or agreement by the provider of the truth of facts alleged or conclusions set forth in the statement of deficiencies. The plan of correction is prepared and/or executed solely because it is required by the provisions of federal and state law.

F490 - The facility is administered in a manner that enables it to use its resources effectively and efficiently to attain or maintain the highest practicable physical, mental and psychosocial well-being of each resident.

On August 23, 2012 the Corporate District Director of Clinical Operations and the Corporate State Director of Risk Management conducted training with the Administrator, Director of Nursing Services, MDS Coordinator, Director of Social Services, Business Office Manager, Activity Director, RN Case Manager, Staff Development Coordinator, Admissions Coordinator and the contract Housekeeping Services Supervisor on the corporate/facility procedures for investigating allegations of abuse. The corporate procedures addressed were Responding to and Investigating An Abuse Allegation, Conducting an Investigation, and Protection of Resident During An Investigation. On August 27, 2012 the District Director of Clinical Operations conducted the same training with the Assistant Director of Nursing.

Areas addressed included, providing immediate protection to any resident involved in an alleged abuse, immediate notification of the Administrator and Director of Nursing Services, (or designated alternate manager i.e. Assistant Director of Nursing, MDS Coordinator, RN Case Manager, Director of Social Services,) and notification of the physician and family. The Administrator and Director of Nurses (or designated alternate) will report promptly to the facility to initiate the investigation using the "Alleged Abuse Investigation Worksheet". The Administrator will notify the VP of Operations and The Director of Nursing will notify the District Director of Clinical Operations of the abuse allegation.

The Administrator will call and update the VP of Operations on all alleged abuse investigations status at least every other day until investigation complete and then report their findings and conclusions. The Director of Nursing will call and update the District Director of...
Continued From page 16

The findings included:

Validation of the Credible Allegation of
Compliance was accomplished through medical
record review, observation, facility policy review,
in-service reviews, and interviews with Residents,
facility staff, including administrative and security
guard staff.

Resident #1 was discharged to another facility on
August 16, 2012.

The facility provided evidence Residents and
families of non-interviewable Residents were
interviewed for allegations of abuse; no abuse
was alleged.

The facility provided evidence the Interdisciplinary
Team assessed, identified, and updated care
plans of Residents who may be at a higher risk
for abuse.

The facility provided evidence of updated
background checks on all male staff except two,
with no negative findings. The delay in the two
background checks is due to previous out-of-state
residences, and the Administrator
confirmed the results are expected at any time.

The facility provided evidence of a security
assessment completed on August 30, 2012, by a
police officer with recommendations to hire a
security guard, to provide additional security.

The facility provided evidence of around-the-clock
interim security personnel effective August 30.
Continued From page 17
2012, through September 4, 2012. A contract for around-the-clock security personnel was obtained effective September 5, 2012; and the contract does not identify a termination date.

The facility provided evidence of a revised policy, Abuse Prohibition.

The facility provided evidence a Security Workgroup had been developed to ensure enhanced security measures were identified and implemented.

Observation of the 100 pill Medication Administration Record confirmed a copy of Residents' care plans who are at high risk for potential abuse.

Observation of the Certified Nursing Assistant Flow sheet book confirmed a copy of Residents' care plans who are at high risk for potential abuse.

Observation of the front lobby confirmed a security guard was constantly present except for breaks, which are covered by facility staff. Visitors were observed to sign-in on the visitor's log upon entering the facility, and sign-out upon exit. When the front door is locked down, beginning at 6:00 p.m., the security guard makes random, periodic rounds inside from the front lobby to the courtyard door; outside rounds are made around the building, to include the inside and outside of the courtyard. The security guard confirmed routine, timed, rounds are avoided, to ensure a pattern is not established and discovered by a potential perpetrator.

This Plan of Correction is the center's credible allegation of compliance.

Preparation and/or execution of this plan of correction does not constitute admission or agreement by the provider of the truth of the facts alleged or conclusions set forth in the statement of deficiencies. The plan of correction is prepared and/or executed solely because it is required by the provisions of federal and state law.

This plan of correction is primarily designed to prevent and/or correct the specific deficiencies identified in this statement of deficiencies. This plan of correction is prepared and/or executed solely because it is required by the provisions of federal and state law.

This plan of correction is primarily designed to prevent and/or correct the specific deficiencies identified in this statement of deficiencies. This plan of correction is prepared and/or executed solely because it is required by the provisions of federal and state law.
**Continued From page 18**

Observation of the service hall entrance confirmed the doors were locked and required staff to open the doors from the inside. Review of the vendor sign-in sheets revealed the sheets were being completed according to policy.

Observation of the courtyard door confirmed codes are required to enter and exit. Continued observation confirmed staff covered the code pad to prevent unauthorized individuals from obtaining the code.

Observation of the camera monitor confirmed three cameras were in operation and recording activity from the (1) front entrance, (2) service hall entrance, and the (3) employee locker room. The recording device and monitor is positioned in the front business office. The facility provided evidence recordings are reviewed daily, to ensure compliance with the visit and vendor sign-in/out requirements (at the front and service hall doors).

Observation of random Residents' rooms confirmed wooden dowels were present in the window thresholds to deter outside entry.

The facility provided evidence the Administrator was in-serviced related to policies and procedures for updated security measures; Abuse; Responding to and Investigating an Abuse Allegation; the Elder Abuse Act; Conducting an Investigation; and Protection of a Resident During an Investigation.

Interview with the Administrator confirmed the Administrator received in-services related to policies and procedures for updated security measures; Abuse; Responding to and

<td>police officer of the City of Maryville. The officer conducted a tour of the facility as well as the grounds of the facility. A verbal recommendation from the officer was for the facility to hire a security guard around the clock to deter crime that visitors were signing in appropriately and provide additional security. The center has obtained security personnel through the Blount County Sheriff Department starting 8/30/12 until a replacement security contract is obtained. The facility will re-convene the Performance Improvement security workgroup at that time to evaluate the recommendations and present them to the Performance Improvement Committee for review and action. The members of the Security Workgroup Arc: Maintenance Director, Administrator, Director of Nursing. Activity Director, Staff Development Coordinator, Housekeeping Supervisor, and Patient Relations Coordinator. Various facility policies and procedures were reviewed by the Administrator. Director of Nursing and Director Director of Clinical Operations on 8/30/12. Two minor changes were made to the written policy and procedures. On 8/21/12 an Addendum to Facility's Abuse Prevention Policy and Procedures was made to clarify the term visitors to include both family/friends as well as other professional committees or visitors such as but not limited to: Paramedics, EMT's, Radiological Technicians, Laboratory technologists, Physicians, Nurse Practitioners, clergy, attorneys, and legal representatives. On 8/30/12 the policy on &quot;Notification,&quot; was amended to add that physicians will be notified for lab test results or other test results returned from another laboratory or healthcare site that the resident was seen. The Administrator conducted in-services for facility staff on definitions of abuse, recognizing signs of possible abuse, protection of resident, Elder Abuse Act. These in-services were conducted beginning on 7/30/12, 8/3/12, 8/5/12, 8/22/12 and 8/24/12 for facility employees. Staff who are on leave, vacation, PRN, etc will not be allowed to return to work until receiving the...</td>

<td>Same in-service. The comprehensive practice for alleged abuse events will include documentation of the investigation on the Alleged Abuse Investigation Worksheet. This worksheet identifies details of the incident, lists all possible witnesses, documents witness interviews, and identifies actions taken to prevent resident from a recurrence. Upon notification of an alleged abuse, the licensed nurse immediately ensures the safety of the resident and contacts the Administrator and Director of Nursing who will return to the center to conduct the investigation and utilize this worksheet. In the event that the Administrator or Director of Nursing are not available to conduct the investigation immediately the back up investigators will include the Assistant Director of Nurses, the RN Case Manager, MDS coordinator and/or the Director of Social Services. The District Director Clinical Operations conducted an in-service on 8/24/12 to the above listed potential investigators on proper completion of this worksheet.</td>

<td>This Plan of Correction is the center's credible allegation of compliance. The Plan of correction is prepared and executed solely because it is required by the provisions of federal and state law. Unlock/lock and monitor gate during this type of activity. The key is secured in the maintenance office. Only Maintenance and Administrator have access to the key. The service door, which is for staff and vendor access only, is locked 24 hours a day/7 days a week. Staff may use access code to exit and enter. Vendor/delivery personnel must ring bell and have staff open the door, the staff that opens the door is responsible to have vendor sign-in and sign out upon completion. The vendor sign-in sheet is located at the delivery entrance. The Administrator, Maintenance Director, (Plant Ops Manager), Director of Nursing, Business Office Manager, Asst. Director of Nursing or assigned week-end duty manager will monitor the vendor logs daily to ensure that vendors are signing in and out. Windows and screens were checked from the exterior on Aug 16, 2012 and found to be secure by the maintenance director. To make resident room windows so that they cannot be opened from the outside by an &quot;intruder, wood dowels were placed in the inside sliding track to prevent the window opening greater than 6 inches on Aug 14, 2012. The facility has purchased windows locks for the resident room windows and after approval from the State of Tennessee, Dept. of Health, Health Care Facilities Engineering were installed on 9/13/2012. All non-resident room windows are currently secured by an inside lock. The maintenance director, maintenance assistant, assigned week-end duty manager are checking the resident room windows daily to validate the current safety device is in place. Currently there are 3 cameras installed to a motion detector that records when there is movement detected. The cameras utilize the front entrance (installation 8/10/12), the vendor entrance (installation began on 8/30 and completed on 9/20/2012, and the employee locker room (installation in 2011). This recording will be reviewed for evidence to verify if there are any events such as employee theft, or other events that occurred; its intent is not to use as real time monitoring.</td>

This Plan of Correction is the center's available allegation of compliance.

Preparation and/or execution of this plan of correction does not constitute admission or agreement by the provider of the truth of the facts alleged or conclusions set forth in the statement of deficiencies. The plan of correction is prepared and/or executed solely because it is required by the provisions of federal and state law, but provide a retrospective review. This is another mechanism for monitoring the compliance of the visitor and vendor sign in procedure. Results of daily review of the recordings will be reported in the weekly morning meeting. At the present time it is reviewed daily by the maintenance director (Plant Ops Manager) or the Administrator, Director of Nursing, Assistant Director of Nursing, Business Office Manager, or Business Office Assistant, Activity Director, Activity Assistant, Director of Social Services, Director of Admissions, Director of Medical Records and Data Entry Clerk. It is possible to watch the event real time if circumstances warrant. The front entrance is locked down beginning at 5 pm. Visitors must ring the bell and security personnel or staff respond to allow visitors to enter and exit the facility. A "visitor's log" placed at the receptionist area is monitored by the security guard to ensure that visitors sign in and out.

The Administrator conducted in-services for staff on the facility's updated security measures on August 15, 19, 21, 23, 24, and 28, 2012. Employees on leave of absence, vacation, etc. upon return will receive the same in-service on prevention measures by their department head or designee, prior to returning to their job area. On August 23, 2012 the District Director of Clinical Operations conducted additional in-service training with Administrator, Director of Nursing, Case Manager, MDS Coordinator, Housekeeping/Laundry Supervisor, Activity Director, Social Worker and Ass't. Director of Nursing on "Conducting an Investigation on an Allegation of Abuse" which included, but was not limited to, immediacy of investigation, modifications, interviewing alleged victim, alleged perpetrator, interviewing witnesses including staff, residents, family members, etc.

The maintenance director, Administrator, Business Office Manager, or assigned weekend duty managers will be responsible to view the video tapes of the front lobby, the employee locker room and the vendor
This Plan of Correction is the center's credible allegation of compliance.

Preparation and/or execution of this plan of correction does not constitute admission or agreement by the provider of the truth of the facts alleged or conclusions set forth in the statement of deficiencies. The plan of correction is prepared and/or executed solely because it is required by the provisions of federal and state law.

Entrance and report any concerns to the facility administrator daily. Any staff member not in compliance with enhanced security measures will be disciplined as appropriate. New hires will receive facility orientation to the center's enhanced security measures.

The Facility's Performance Improvement Committee (Administrator, Director of Nursing, Medical Director, A&I Director of Nursing, Staff Development Coordinator, Business Office Manager, RN Case Manager, MDS Coordinator, Activity Director, Director of Social Services, Certified Dietary Manager, Plant Ops Manager, Admissions Coordinator) met on August 21, 2012 to address issues of security. Updates to the security measures will be reviewed and further recommendations made as needed. The Administrator/Director of Nursing/Staff Development Coordinator will track and trend events such as injury of unknown origin, information from resident/family interviews, and allegation of abuse investigations, if any, to monitor and evaluate facility's abuse prevention program. The Director of Nursing will continue to present to the FPI Improvement Committee (Administrator, Director of Nursing, Medical Director, A&I Director of Nursing, Staff Development Coordinator, Business Office Manager, RN Case Manager, MDS Coordinator, Activity Director, Director of Social Services, Certified Dietary Manager, Plant Ops Manager, Admissions Coordinator) at its monthly meeting any/all investigations of allegations of abuse that includes a review of compliance with the facility's P&P on Abuse Prevention & Investigation for review, discussion and recommendations, if indicated.

SUMMARY STATEMENT OF DEFICIENCIES
(EACH DEFICIENCY MUST BE PRECEDED BY FULL REGULATORY OR LSC IDENTIFYING INFORMATION)

(F 490)
Continued From page 19
Investigating an Abuse Allegation; the Elder Abuse Act; Conducting an Investigation; and Protection of a Resident During an Investigation; and related notifications and documentation.

Interviews with random facility licensed and certified nursing staff, dietary and housekeeping staff, the Director of Nursing, and the Administrator, during the revisit, confirmed they had received in-services related to policies and procedures for updated security measures, Abuse; Responding to and Investigating an Abuse Allegation; the Elder Abuse Act; Conducting an Investigation; and Protection of a Resident During an Investigation; and related notifications and documentation.

The facility remains out of compliance at an "E" level until it provides an acceptable plan of correction and the facility’s corrective measures could be reviewed and evaluated by the Quality Assessment/Performance Improvement Committee.

(F 520)
483.75(q)(1) QAA SS=E COMMITTEE-MEMBERS/MEET QUARTERLY/PLANS

A facility must maintain a quality assessment and assurance committee consisting of the director of nursing services; a physician designated by the facility; and at least 3 other members of the facility’s staff.

The quality assessment and assurance committee meets at least quarterly to identify issues with respect to which quality assessment and assurance activities are necessary; and

(F 520)
F520 The Administrator, the Director of Nursing, and a nurse consultant met on 8/21/2012 to review several of the Facility policies and procedures that were the subject of the deficiencies cited during the August 20, 2012 survey. These policies included the policy governing physician notification, the policy governing use of the 24-Hour Report, the procedure for test results, and the abuse policy. Abuse prevention, conducting an investigation protection of a resident during an investigation responding and investigating an abuse allegation, reporting reasonable suspicion of a crime. Two minor changes were made to the written policy and procedures. On 8/31/12 an Addendum to
Continued from page 20

develops and implements appropriate plans of action to correct identified quality deficiencies.

A State or the Secretary may not require disclosure of the records of such committee except insofar as such disclosure is related to the compliance of such committee with the requirements of this section.

Good faith attempts by the committee to identify and correct quality deficiencies will not be used as a basis for sanctions.

This REQUIREMENT is not met as evidenced by:

Based on medical record review, review of the facility investigation, review of facility training program, review of facility policy, review of payroll hours, review of an interview schedule, review of a sexual assault forensic report, observation, interview, and review of video surveillance, the facility's Quality Assurance (QA) Committee failed to maintain an effective QA program to protect one Resident (#1) with Alzheimer's Disease (a common type of Dementia, in which a loss of mental abilities is severe enough to interfere with normal activities of daily living) from sexual abuse; failed to ensure policies and procedures were followed for investigating and implementing corrective interventions to ensure Residents were protected from further abuse of twelve Residents reviewed. The facility's failure has caused sexual abuse of one Resident (#1) and placed other Residents at risk for abuse. The facility's failure placed all Residents with Dementia in Immediate Jeopardy (a situation in which the provider's noncompliance with one or more requirements of
Continued from page 21, participation has caused, or is likely to cause, serious injury, harm, impairment, or death to a Resident.

The facility provided a Credible Allegation of Compliance on August 30, 2012. A revisit conducted on September 6, 2012, revealed the corrective actions implemented on August 30, 2012, removed the immediate jeopardy.

Non-compliance for F-520 continues at an "E" level citation (potential for more than minimal harm).

The findings included:

Validation of the Credible Allegation of Compliance was accomplished through medical record review, facility policy review, in-service reviews, and interviews with facility staff, including administrative staff.

Resident #1 was discharged to another facility on August 16, 2012.

The facility provided evidence the Performance Improvement Committee reviewed the Abuse and Abuse-related policies. Policies reviewed included Physician Notification; Use of the 24-Hour Report; Abuse; Abuse Prevention; Conducting an Investigation; Protection of a Resident during an Investigation; Responding and Investigating an Abuse Allegation; and Reporting Reasonable Suspicion of a Crime. The review produced revisions to two policies, (1) Abuse Prohibition Policy, and (2) Notification, related to diagnostic testing.
