K 000. INITIAL COMMENTS

This Comparative Federal Life Safety Code (LSC) Survey was conducted on November 1, 2012. It was conducted as per the requirements of the Federal Register at 42CFR 483.70 (a) using the existing Health Care Section of the 2000 edition of the LSC and its referenced publications. This building was Type V (000), completely sprinklered and housed 100 beds.

There were no deficiencies determined during the survey.
