**INITIAL COMMENTS**

A Recertification survey and complaint investigation #s 30484, 30781, 31052, 31398, were completed on April 11, 2013. No deficiencies were cited related to complaint investigation #s 30484, 30781, 31052, 31398, under 42 CFR PART 482.13, Requirements for Long Term Care Facilities.

**F 241 483.15(a) DIGNITY AND RESPECT OF INDIVIDUALITY**

The facility must promote care for residents in a manner and in an environment that maintains or enhances each resident’s dignity and respect in full recognition of his or her individuality.

This REQUIREMENT is not met as evidenced by:

Based on observation and interview, the facility failed to provide a homelike environment conducive to dining and resident dignity on four dining observations in the Ruby Room dining area.

The findings included:

Observation in the Ruby Room dining area on April 8, 2013, at 11:59 a.m., revealed square and round dining tables with table cloths on them. Observation revealed two semi-circle tables in the middle of the room without table cloths.

Further observation revealed the Certified Nursing Assistants (CNA) were placing clothing protectors on the residents without first asking the resident if they wished to have a clothing protector. Observation revealed CNA #2 was

---

**F 241 F Tag 241 — Dignity and Respect of Individuality**

May 10, 2013

1) The Director of Nursing/Staff Development Coordinator 4/23/2013 educated and trained 100% of Nursing staff including certified nursing assistant (CNA) #1, CNA #2 and licensed practical nurse (LPN) #1 assigned to Residents in the Ruby Room regarding promoting care, with an emphasis on addressing residents in a respectful manner, asking if a clothing protector is preferred by the resident, and protecting clothes in a manner that maintains the resident’s dignity in recognition of his/her individuality. The education also included training regarding asking residents if they prefer certain conditions before applying to food.

All of the other dining rooms were observed to detect non-compliant practices and were corrected at the time of observation.

The Assistant Director of Nursing/Designee will conduct observation audit rounds in dining rooms to ensure residents are asked before applying clothing protectors, offering beverages of choice and offering of condiments before providing them, 5

Licensed Practical Nurse (LPN) #1 gave medicines to resident # 60 in the dining room.

Interview with LPN #1 on April 8, 2013, at 12:40 p.m., confirmed medication was given in the dining room.

Observation of breakfast in the Ruby Dining Room on April 10, 2011, at 7:45 a.m., revealed a CNA placing clothing protectors on five residents without asking them first if they wanted one.

Continued observation in the Ruby Dining Room revealed a CNA going from table to table pouring syrup onto the residents' waffles but failed to ask the residents first if they wanted any syrup.

483.15(b) SELF-DETERMINATION - RIGHT TO MAKE CHOICES

The resident has the right to choose activities, schedules, and health care consistent with his or her interests, assessments, and plans of care; interact with members of the community both inside and outside the facility; and make choices about aspects of his or her life in the facility that are significant to the resident.

This REQUIREMENT is not met as evidenced by:
Based on medical record review, observation, and interview, the facility failed to allow the resident the right to choose a bathing schedule for three (#45, #115, #47) of seventeen residents interviewed regarding bathing schedule.

This Plan of Correction is the center's credible allegation of compliance. Preparation and/or execution of this plan of correction does not constitute admission or agreement by the provider of the truth of the facts alleged or conclusions set forth in the statement of deficiencies. The plan of correction is prepared and/or executed solely because it is required by the provisions of federal and state law to report any complaints to the Administrator for follow through by appropriate department head. The Social Services Director, or her designee, will conduct 3 individual resident interviews monthly x 3 months to ascertain if the residents are being treated with respect and dignity and report any complaints to the Administrator for follow through on the grievance log format. SDC will include in orientation include proper medication administration and dignity inclusion regarding not passing medications in the dining room during meal times. 4) The Director of Nursing, or her designee, will assure through observation, record review, and review of audits by Assistant Director of Nursing/ Designee that residents are being treated with respect and dignity in full recognition of his/her individuality to Quality Assurance/Performance Improvement for review by the Interdisciplinary team for evaluation and effectiveness of the plan of correction. Members of the Quality Assurance/Performance Improvement are: Administrator, Director of Nursing, Assistant Director of Nursing, Staff Development, MDS Coordinator.
This REQUIREMENT is not met as evidenced by the residents' failure to have a choice about their activities, schedules, and control over their lives.

The Observation of breakfast in the Ruby Dining Room on April 10, 2013, at 7:56 a.m., revealed a CNA pouring from table to table pouring syrup onto the residents' waffles but failed to ask the residents first if they wanted any syrup.

Continued observation in the Ruby Dining Room confirmed this pattern of feeding residents without asking their preference first.

Interview with LPN #1 on April 8, 2013, at 12:40 p.m., confirmed medication was given in the dining room.

The resident has the right to choose activities, schedules, and health care consistent with his or her interests, assessments, and plans of care. Interaction with members of the community both inside and outside the facility is significant to the resident.
F 242
Continued From page 3
The findings included:

Resident #46 was admitted to the facility on March 11, 2010, with diagnoses including Parkinson’s Disease, Diabetes, Bowel and Bladder Incontinence, Hyperlipidemia, and history of Cerebral Vascular Disease (CVA).

Medical record review of the quarterly Minimum Data Set (MDS) dated February 13, 2013, revealed the resident was cognitively intact for daily decision making; required extensive assistance for personal hygiene, and required one person physical assistance for bathing.

Medical record review of the annual MDS dated November 22, 2012, revealed it was “very important” for resident #46 to have choice in bathing.

Medical record review of the Care Plan dated March 12, 2013, revealed, “...resident is to receive showers 2x’s per week Q (every) Wed on 3-11 shift and Saturday on 7-3 shift...”

Medical record review of the Flow Sheet Record for resident #46 revealed, the resident received seven showers between March 1-31, 2013. The resident received four showers between February 1-28, 2013.

Interview with resident #46 in the resident’s room, on April 8, 2013, at 4:22 p.m., revealed the resident does not have a choice between bed bath, tub bath, or a shower; and does not choose how many times a week a bath or shower is taken. Continued interview revealed the resident preferred a shower each night.

F 242
F Tag 242 – Self Determination – Right to make choices
May 10, 2013

1) The Director of Nursing/Designee will educate and counsel nursing staff members assigned to residents (#46,#115,#47) regarding promoting care and individual self-determination, with an emphasis on encouraging resident choice asking what the resident’s preferred bathing/shower schedule is in a manner that maintains the resident’s self-determination in recognition of his/her individuality.

Resident #46 prefers her showers in the evening and shower schedule was changed to honor her choice. (She stated no preference for a specific day). The days remain the same.

Resident #115 prefers her showers in the daytime on Tuesdays, Thursdays and Saturdays. This resident’s schedule has been adapted to honor her choice. Her showers are now Tuesday, Thursday, Saturday on day shift.

Resident #47 prefers her showers two times a week with no preference for the day but likes it on day shift earlier in the morning. Her shower schedule has been adapted to honor her choice. The days of the week remain the same.

Restructure bathing/shower schedules of resident #46,#115,#47 to fit needs of resident’s choice and reassess at least quarterly by ADON/Designee. The Assistant Director of Nursing/Designee to review shower schedule to ensure bathing schedule reflects resident preferences by 5/10/2013.

Update the minimum data set (MDS) with individualized shower preferences by MDS/designee.
Continued From page 4

Observation of the resident on April 10, 2013, at 7:58 a.m., in the resident's room revealed the resident seated in the wheelchair and was "getting ready to get a bath."

Review of the of the Patient Nursing Evaluation for resident #46 dated June 25 and November 25, 2012, revealed a section titled, 'Personal Habits' which had a check box for alcohol and tobacco use and sleep pattern. Review of the evaluation revealed there is no inquiry of the bathing preference (shower or bath) or the frequency of the bathing schedule.

Interview with Certified Nursing Assistant (CNA #4) on the Nightingale hallway on April 10, 2013, at 2:00 p.m., revealed "showers are twice per week...they are assigned shower times."

Interview with the Director of Nursing (DON) on April 10, 2013, at 2:05 p.m. in the DON's office, revealed the facility does not have a system in place to determine the resident's preference of bathing style or frequency; and confirmed the facility does not have a plan in place to promote the resident's choice in their bathing.

Resident #115 was admitted to the facility on September 27, 2011, with Diagnoses including Peripheral Vascular Disease, Neurogenic Bladder and Hypertention.

Medical record review of the quarterly MDS dated February 13, 2013, revealed the resident was cognitively intact for daily decision making, required extensive

**Note:** The table continues on the next page with more details and information.
F 242 Continued from page 8
Interview with resident #47 on April 8, 2013, at 3:36 p.m., and April 11, 2013, at 3:00 p.m., in the resident's room, revealed the resident preferred a shower daily.

Review of the quarterly MDS dated January 23, 2013, revealed the resident was cognitively intact, required extensive assistance with one person physical assistance for bed mobility, transfers, toilet use, and bathing.

Review of the March 2013 Flow Sheet Record revealed the resident was to receive a shower two times a week.

Review of the Care Plan dated January 30, 2013 revealed the resident needed "...assistance with bathing...Approaches:...shower and shampoo 2x/week (2 times per week), bed bath on all other days...".

Review of the Patient Nursing Evaluation dated August 20, 2012, revealed the resident's personal habit section did not include bathing preferences or frequency.

Interview with CNA #2 on April 10, 2013, at 12:40 p.m., in the Ruby Dining Room, revealed the CNA was not aware the resident preferred daily showers.

Interview with the DON on April 10, 2013, in the DON's office at 3:15 p.m., confirmed the Patient Nursing Evaluation failed to address the resident's bathing preference and frequency and failed to honor the resident's bathing preference.

Staff Development Coordinator will include orientation for resident choice and the format to assess for some of those choices on admission, 4/25/2013.

4) The Director of Nursing, or her designee, will assure through observation, record review, monitoring of effectiveness of shower bathing routines by audit of 3 cognitive residents 5x a week for 3 weeks then 3x a week for 3 weeks then 1x a week x 3 weeks and / or until 100% compliance results from audit by the Assistant Director of Nursing or her designee. The Director of Nursing/Designee will identify through individual interviews those residents who feel they are not treated in a manner that maintains or enhances their ability to self-determine. The Director of Nursing will take this information to Quality Assurance/Performance Improvement for review by the Interdisciplinary team for evaluation and effectiveness of the plan of correction. The Administrator is responsible for overall compliance.

5/10/2013.

Members of the Quality Assurance/Performance Improvement are: Administrator, Director of Nursing, Assistant Director of Nursing, Staff Development, MDS Coordinator, Treatment Nurse, Admissions/Marketing, Business Office Manager, Rehab Manager, Medical Records, Medical Director, Social Services, Environmental Services, Maintenance Director, Dietitian, Activities Director & Consulting Pharmacist.
A facility must use the results of the assessment to develop, review and revise the resident's comprehensive plan of care.

The facility must develop a comprehensive care plan for each resident that includes measurable objectives and timetables to meet a resident's medical, nursing, and mental and psycho-social needs that are identified in the comprehensive assessment.

The care plan must describe the services that are to be furnished to attain or maintain the resident's highest practicable physical, mental, and psycho-social well-being as required under §483.25, and any services that would otherwise be required under §483.25 but are not provided due to the resident's exercise of rights under §483.10, including the right to refuse treatment under §483.10(b)(4).

This REQUIREMENT is not met as evidenced by:
Based on medical record review and interview, the facility failed to develop an individualized care plan with specifics of care for one (#31) of thirty residents reviewed.

The findings included:

Resident #31 was admitted to the facility with diagnoses to include Dementia, Meniere's Disease, Depression, Hypothyroidism, and Transient Ischemic Attack.

F Tag 279 - Develop Comprehensive Care Plans

1) Care plan for Resident #31 updated to reflect current treatment modalities, location, size, stage, and any nursing precautions by ADON. Wound Progressing well as evidenced by decrease in size. The Director of Nursing/ Designee will in-service and counsel staff members assigned to resident (#31) regarding documentation of resident status/care changes in care plan and individual treatment modalities, with an emphasis on Pressure Ulcer, nursing precautions, and detailed descriptions of the wound in a manner that reflects accurately the resident's current wound status. 4/25/2013.

Weekly notes by Risk Team (Director of Nursing, Assistant Director of Nursing, MDS Coordinator, Treatment Nurse) to include current wound status, stage, treatment, location, detailed description of current wound and any nursing precautions needed for resident #31. Any changes noted will be communicated to the nursing staff at the time of change. 5/10/2013.

Update MDS with individualized care plan updates by MDS Coordinator/designee as changes take place based on review of orders in stand up meeting 5 x's a week. The MDS Coordinator updated the care plan for resident #3 on 4/10/2013 and will continue to update as changes take place or as review of physician notes will indicate.

We are cleaning with wound cleanser; applying hydrogel; and covering with a dry dressing daily. I am not sure the wound will heal completely with the vascular insufficiency in the leg. There is also a wound to the outer aspect of the left lower extremity which we cleanse with wound cleanser; apply hydrogel to wound bed; packing with gauze strips; and covering with dry dressing...".

Medical record review of the Care Plan revealed skin integrity was addressed but did not specify where the resident's wounds were located; any description of the wounds; specific treatment for the wounds; and nursing precautions to be taken with this resident.

Interview with the Director of Nursing (DON) on April 10, 2013, at 3:30 p.m., in the DON's office confirmed the Care Plan had not been revised to reflect the location, stage, specific treatment, and nursing precautions of the Pressure Ulcer to the heel.

F 309 483.25 PROVIDE CARE/SERVICES FOR HIGHEST WELL BEING
F 309 - Provide care/services for highest well-being

1) Resident #164 was discharged home from the facility on September 14, 2012. In-service education by Staff Development Coordinator/Designee for nursing staff on policy and procedure for medication ordering and receiving. 4/25/2013 (100% nursing staff)

Pharmacy instructed to contact Director of Nursing on private number if ever cannot provide a medication same day to the facility for any reason the day of the order. 4/10/2013

In-service by Staff Development Coordinator/Designee on proper documentation and follow up when medication is unavailable. 4/25/2013 (100% nursing staff) Education also included review of nursing policy regarding resident medication regime and missed medications.

2) Director of Nursing and Nursing Administration team to review each new admission/readmission and all medication orders Monday through Friday in stand up and Weekend Supervisor on Saturday and Sunday. 5/10/2013. If any non-compliance with medication administration, MD notified and immediate correction is made.

Director of Nursing/Designee to audit residents with new orders or changes in orders 5 x a week x 3 weeks then 3 x a week x 3 weeks and then 1 x a week until 100% compliance is met to verify.

Resident #164 was admitted to the facility on September 11, 2012, following a hospital stay with diagnoses to include Hypotension, Nausea and Vomiting, Lung Cancer, Gastroesophageal Reflux Disease, Depression, and previous Myocardial Infarction.

Medical record review of Physician's Orders dated September 11, 2012, revealed among the discharge medications for the resident was NaCl (sodium chloride - salt) 1 gram 3 times daily. Continued review of Physician's Orders dated September 13, 2012, revealed D/C (discontinue) NaCl 1 gram TID (three times daily). Start V8 juice 3 cans daily. Further review of Physician's Orders dated September 14, 2012, (no time), revealed "...Start peripheral IV (intravenous), Infuse NS (normal saline) at 70hr (milliliters per
Continued from page 10

F 309

Medical record review of the Medication Administration Record (MAR) revealed the NaCl 1 gram TID was hand written on the admission MAR. Continued review of the MAR for September 2012 revealed the Nurse's initials were circled (to denote medication was held) on September 12, 2012, at 8:00 a.m., 2:00 p.m., and 9:00 p.m. Review of the back side of the MAR revealed a Nurse's Note stating the 9:00 p.m. dose of NaCl was held because the resident was sleeping. Further review of the September 2012 MAR revealed the NaCl was documented as being administered on September 13, 2012, at 8:00 a.m., and 2:00 p.m. with a circle around the Nurse's initials for the 9:00 p.m. dose and a note on the back of the MAR stating the medication was held because the resident was sleeping. Continued review of the September 2012 MAR revealed the NaCl 1 gram TID was discontinued on September 13, 2012 and V6 juice 3 cans per day was added but there was no documentation the juice was ever given.

Medical record review of a Nursing Note dated September 12, 2012 at 12:20 a.m., revealed
F 309
Continued From page 11
"...called ...(named Physician) related to medication did come from Pharmacy except Dilaudid x10. Give as soon as they arrive from backup pharmacy. Do not hold meds. Pharmacy is out of Demeclocycline 150 mg will bring in tomorrow...". Continued review of Nursing Notes revealed no documentation the Physician was notified the NaCl was not delivered by Pharmacy. Further review of a Nursing Note dated September 14, 2012, with no time, revealed "...ANP (Advanced Nurse Practitioner) called O/T (due to) critical NaCl at 119. Intuse 2 L (liters) NS @ 70/hrs Na level after first liter..."

Medical record review of an entry by the ANP dated September 14, 2012, with no time, revealed "...NaCl 1 gram po TID ordered from hospital. I was notified at 1900 (7:00 p.m.) September 13, 2012, that NaCl tabs have not been given since admission. Physician ordered V8 juice 1 can TID. I was notified today (9/14/12) that V8 juice had not been given and Na level was 119. Order for NS @ 70/hr x 2L. When I arrived at facility Nurse unable to obtain access (unable to start IV)..."

Medical record review revealed the resident was discharged home on September 14, 2012, with orders to follow up with personal Physician.

Review of facility policy, Medication Ordering and Receiving, revealed "...if the medication is not available in the emergency kit or through the provider pharmacy, contact the back-up pharmacy for the medication. If the medication continues to be unavailable, contact the physician for further instructions..."

Medical records director will bring the chart to stand up after the 72 hour period is over and the other disciplines will sign their portion. Medical records director will audit all discharge charts weekly for completeness of discharge summaries and turn in to the Administrator 5 times a week x 3 weeks then 3 times a week x 3 weeks then 1 time a week x 3 weeks and until 100% compliance results from auditing. The Director of Nursing and Administrator will counsel and in-service the staff members identified through this process. 5/10/2013.

3) The Staff Development Coordinator will conduct an In-service with the nursing staff and with the Interdisciplinary team on timely filling out of discharge summaries when residents are discharged from facility. The Staff Development Coordinator will include information regarding completing them within 72 hours of discharge in the orientation of all new personnel. The Medical Records Director will bring the charts due for discharge summaries to standup for completion and report any incompleteness to the Administrator for follow through. Medical records director will audit all discharge charts 5 times a week x 3 weeks then 3 times a week x 3 weeks then 1 time a week x 3 weeks and until 100% compliance results from auditing for completeness of discharge summaries and turn in to the Administrator for review. 4/25/2013 and ongoing. Medical Records Director was included in this in-service.
