**K 054**
**NFPA 101 LIFE SAFETY CODE STANDARD**

SS=D

All required smoke detectors, including those activating door hold-open devices, are approved, maintained, inspected and tested in accordance with the manufacturer's specifications.  9.6.1.3

This STANDARD is not met as evidenced by:

Based on observation, it was determined the facility failed to ensure that 2 of 66 (a smoke detector in the Infectious waste room on the 200 and 300 hall) smoke detectors had the required clearance from exhaust vents.

The findings included:

1. Observations of the Infectious waste room on the 200 hall on 8/22/11 at 8:05 AM, revealed a smoke detector that did not have 3 feet of clearance from the exhaust vent.

2. Observation of the infectious waste room on the 300 hall on 8/22/11 at 8:30 AM, revealed a smoke detector that did not have 3 feet of clearance from the exhaust fan.

These findings were acknowledged by the Administrator and verified by the Maintenance Supervisor at the exit conference on 8/22/11.
