K.066

**Smoking Regulations**

Smoking regulations are adopted and include no less than the following provisions:

1. Smoking is prohibited in any room, ward, or compartment where flammable liquids, combustible gases, or oxygen is used or stored and in any other hazardous location, and such area is posted with signs that read NO SMOKING or with the international symbol for no smoking.

2. Smoking by patients classified as not responsible is prohibited, except when under direct supervision.

3. Ashtrays of noncombustible material and safe design are provided in all areas where smoking is permitted.

4. Metal containers with self-closing cover devices into which ash trays can be emptied are readily available to all areas where smoking is permitted.

This **STANDARD** is met as evidenced by:

Based on observation, it was determined the facility failed to provide metal containers with self-closing cover devices at all smoking areas.

The findings included:

Observations of the smoking area at the drive through canopy on 7/6/11 at 9:01 AM, revealed there was no metal container with a self-closing cover device into which ash trays could be emptied into.

**LABORATORY DIRECTORS OR PROVIDERS’ REPRESENTATIVE SIGNATURE**

**Title**

**Date**

Any deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are discoverable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are discoverable 14 days following the date these documents are made available to the facility. If deficiencies are identified, an approved plan of correction is requisite to continued program participation.
