<td>SS=D</td>
<td>Electrical wiring and equipment is in accordance with NFPA 70, National Electrical Code 9.1.2</td>
</tr>
</tbody>
</table>

This facility will ensure that the use of power strips is not a substitute for fixed wiring to provide power for medical equipment.

1. For Rooms 6, 24 and 14, all medical equipment was plugged into fixed wall receptacle.
2. All resident rooms were audited for compliance by Maintenance Director/Designee.
3. All rooms will be re-inspected weekly by Maintenance Director or designee for 90 days and then semi-annually. Nursing staff will be in-serviced on standard by 3/15/14.
4. Results of weekly inspections will be brought to QAPI by Maintenance Director or designee for tracking and trending x 90 days.

These findings were verified by the assistant maintenance director and acknowledged by the administrator during the exit conference on 2/18/14.

**Laboratory Director or Provider/Supplier Representative's Signature:**

**Title:** Administrator

**Date:** 3/5/14

Any deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosed 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosed 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.
