| N1401 | 1200-8-6-14(1)(a) Disaster Preparedness  
(1) Emergency Electrical Power.  
(a) All nursing homes must have one or more on-site electrical generators which are capable of providing emergency electrical power to at least all life sustaining equipment and life sustaining resources such as: ventilators, blood banks, biological refrigerators, safety switches for boilers, safety lighting for corridors and stairwells, and other essential equipment.  
This Rule is not met as evidenced by:
Based on observation, it was determined 9 of 46 (rooms 104, 105, 107, 206, 212, 213, 301, 305 and 317) resident rooms had furniture obstructing the safety lighting.  
The findings included:
Observations on 10/11/10 beginning at 10:00 AM revealed the safety lights in resident rooms 104, 105, 107, 206, 212, 213, 301, 305 and 317 were obstructed with furniture. | N1401 | N 1401  
1200-8-6-14(1)(a) Disaster Preparedness  
Requirement:  
All nursing homes must have one or more on-site electrical generators which are capable of providing emergency electrical power to at least all life sustaining equipment and life sustaining resources such as: ventilators, blood banks, biological refrigerators, safety switches for boilers, safety lighting for corridors and stairwells, and other essential equipment.  
Corrective Action:  
1. Facility will maintain unobstructed night lights in Resident rooms.  
2. Maintenance will complete the relocation of furniture so as to not block night lights in rooms 104, 105, 107, 206, 212, 213, 301, 305 and 317 on 10/29/10.  
3. Maintenance and housekeeping staffs in serviced on 10/25/10 to be aware of proper furniture placement and to keep night lights free of obstructions.  
4. Maintenance Director and Administrator will monitor via daily facility walking rounds and report findings to QA Committee. | 10/25/10 |
