<td>INITIAL COMMENTS</td>
<td>A recertification survey and complaint investigation #31632, were completed on July 8 - 10, 2013. Deficiencies were cited related to complaint investigation #31632 under 42 CFR Part 482.13, Requirements for Long Term Care Facilities.</td>
<td>This Plan of Correction is submitted as required under State and Federal law. The facility's submission of the Plan of Correction does not constitute an admission on the part of the facility that the findings cited are accurate, that the findings constitute a deficiency, or that the scope and severity determination is correct. Because the facility makes no such admissions, the statements made in the Plan of Correction cannot be used against the facility in any subsequent administrative or civil proceeding.</td>

<td>This REQUIREMENT is not met as evidenced by: Based on medical record review and interview, the facility failed to follow physician's orders for one resident (#111) of thirty-two residents reviewed. The findings included: Resident #111 was admitted to the facility on January 23, 2012, with diagnoses including Presentile Dementia, Chronic Ischemic Heart Disease, Hypertension, Chronic Kidney Disease, Congestive Heart Failure, Osteoarthritis, History of TIA/Stroke without residual, and Anemia. Medical record review of the Nursing Notes revealed the resident expired on April 13, 2013. Medical record review of a Physician's Order</td>
<td>1. Resident # 111 is no longer a resident at the facility. 2. The Director of Nursing, the Assistant Director of Nursing, and the Regional Director of Clinical Services reviewed all medication orders for accuracy on 7/9/13. No other residents were identified as being affected. 3. Licensed nurses were in-serviced on ensuring all medication orders are accurately followed from 7/9/13 - 7/12/13 by the Staff Development Coordinator, the Assistant Director of Nursing, and the Director of Nursing.</td>
<td></td>

Any deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patient. (See Instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is required to continued program participation.

<td>F 309</td>
<td>Continued From page 1 dated March 21, 2013, revealed the resident began receiving hospice services. Medical record review of a Physician's Order dated April 11, 2013, at 8:20 p.m., revealed the resident was to receive Roxanol (pain medication) 20 mg/ml (milligrams per milliliter), 1 ml sublingual (under the tongue) every two hours, and Roxanol 20 mg/ml, 0.6 ml every four hours was to be discontinued. Medical record review of the April 2013 Medication Administration Record (MAR) revealed the Roxanol 0.5 ml every four hours was discontinued on April 11, 2013. Continued review of the April 2013, MAR revealed the Roxanol 0.5 ml was restarted on April 12, 2013, at 4:00 p.m., and administered by Licensed Practical Nurse (LPN) #1. Medical record review revealed no Physician's Order to restart the Roxanol 0.5 ml on April 12, 2013. Interview on July 9, 2013, at 4:45 p.m., with LPN #1, in the Director of Nursing's office, revealed on April 12, 2013, the resident's family was at the bedside and wanted pain medication administered to the resident. Continued interview revealed another Nurse had told LPN #1 the Roxanol 0.5 ml was to be administered to the resident every four hours in addition to the Roxanol 1 ml every two hours. Continued interview confirmed LPN #1 had transcribed the Roxanol 0.5 ml every four hours onto the MAR, incorrectly on April 12, 2013, after looking at the order to discontinue the Roxanol 0.5 ml every four hours written on April 11, 2013. Continued...</td>
<td>4. An audit of 10 Medication orders will be completed daily for 1 week, weekly for 3 weeks, and monthly for 2 months and/or 100% compliance by the Director of Nursing, the Assistant Director of Nursing, the Staff Development Coordinator, and the Charge Nurses. The results of the audits will be presented by the Director of Nursing to the Quality Assurance/Performance Improvement Committee. The Quality Assurance/Performance Improvement Committee consists of at least the Administrator, Director of Nursing, Assistant Director of Nursing, Admission Director, Housekeeping Director, Maintenance Director, Food Service Director, Activity Director, Social Services Director, Therapy Services Director and the Medical Director.</td>

REGULATORY OR LSC IDENTIFYING INFORMATION)

F 323 Continued From page 3
Spinal Stenosis, Vascular Dementia with
Depression, Atrial Fibrillation, and Congestive
Heart Failure.

Medical record review of the fall risk assessment
dated July 5, 2013, revealed the resident was at
high risk for falls.

Medical record review of the Physician's
Recapitulation Orders dated July 1, 2013 through
July 31, 2013, revealed "...Anti Roll Backs to W/C
(wheelchair)...."

Medical record review of the Care Plan dated
June 2, 2013, revealed "...Potential for
falls...anti-roll backs in w/c...."

Observation on July 9, 2013, at 1:30 p.m., with
Licensed Practical Nurse #3, revealed the
resident seated in a w/c, in the hall; without the
anti-roll backs to the w/c.

Interview on July 9, 2013, at 3:35 p.m., in the
conference room, with the Director of Nursing
confirmed the resident was to have the anti-roll
backs on the w/c.

F 514 483.75(1)(1) RES
SS=D RECORDS-COMPLETE/ACCURATE/ACCESSIBLE

The facility must maintain clinical records on each
resident in accordance with accepted professional
standards and practices that are complete;
accurately documented; readily accessible; and
systematically organized.

The clinical record must contain sufficient
information to identify the resident; a record of the

residents' assessments; the plan of care and services provided; the results of any preadmission screening conducted by the State; and progress notes.

This REQUIREMENT is not met as evidenced by:
Based on medical record review and interview, the facility failed to maintain a complete medical record for one resident (#111) of thirty-two residents reviewed.

The findings included:

Resident #111 was admitted to the facility on January 23, 2012, with diagnoses including Presenile Dementia, Chronic Ischemic Heart Disease, Hypertension, Chronic Kidney Disease, Congestive Heart Failure, Osteoarthritis, History of TIA/Stroke without residual, and Anemia.

Medical record review of a Physician's Orders dated April 11, 2013, at 8:20 p.m., revealed the resident was to receive Roxanol (pain medication) 20 mg/ml (milligrams per milliliter), 1 ml sublingual (under the tongue) every two hours.

Medical record review of the April 2013 Medication Administration Record (MAR) revealed no documentation the resident had received the Roxanol on April 12, 2013, at 12:00 p.m., and 2:00 p.m.

Interview on July 9, 2013, at 1:00 p.m., with Licensed Practical Nurse (LPN #2), in the Director of Nursing's office revealed the Roxanol was administered as ordered, however LPN #2
