Tennessee Code Annotated 68-11-304(c)22: Food shall be protected from dust, flies, rodents, unnecessary handling, droplet infection, overhead leakage and other sources of contamination, whether in storage or while being prepared and served and/or transported through hallways.

Based on policy review, observation and interview, it was determined the facility failed to ensure food was protected from sources of contamination when dietary workers #1 and #2 did not wear beard covers for 2 of 3 days.

The findings included:

1. Review of the facility's "Preventing Foodborne Illness - Employee Hygiene and Sanitary Practices" policy documented, "...12. Food service employees will be required to wear hairnets, caps, or other hair restraints to keep hair from contacting exposed food, clean equipment, and utensils..."
2. Observations in the Somerfield kitchen on 3/19/12 at 12:10 PM, revealed dietary worker #1 serving trays from the tray line with a beard and a mustache with no beard cover.

Observations on 3/19/12 at 12:10 PM, revealed dietary worker #2 entered the Somerfield kitchen, obtained a tray from the tray line, and delivered the tray to a resident in the dining room. Dietary worker #2 had a beard and a mustache with no beard cover. This was observed multiple times on 3/19/12 from 12:10 PM to 12:50 PM.

3. Observations in the Somerfield kitchen on 3/21/12 at 12:10 PM, dietary worker #1 served trays and obtained temperatures from the tray line with a beard and a mustache with no beard cover.

Observations in the Somerfield kitchen on 3/21/12 at 12:10 PM, dietary worker #2 obtained trays from the tray line. Dietary worker #2 had a beard and a mustache with no beard cover.

4. During an interview in the Registered Dietician’s office on 3/21/12 at 1:50 PM, the Registered Dietician (RD) / Dietary Manager (DM) confirmed dietary workers #1 and #2 were not wearing beard covers. The RD/DM stated, "...we will start doing this [covering beards/mustaches], I will pass that on..."
