This Plan of Correction is the facility's credible allegation of compliance. Preparation and/or execution of this plan of correction does not constitute admission or agreement by the provider of the truth of the facts alleged or conclusions set forth in the statement of deficiencies. The plan of correction is prepared and/or executed solely because the provisions of federal and state law require it.

The facility must inform the resident both orally and in writing in a language that the resident understands of his or her rights and all rules and regulations governing resident conduct and responsibilities during the stay in the facility. The facility must also provide the resident with the notice if any of the State developed under § 1919(e)(6) of the Act. Such notification must be made prior to or upon admission and during the resident's stay. Receipt of such information, and any amendments to it, must be acknowledged in writing.

The facility must inform each resident who is entitled to Medicaid benefits, in writing, at the time of admission to the nursing facility or, when the resident becomes eligible for Medicaid of the items and services that are included in nursing facility services under the State plan and for which the resident may not be charged; those other items and services that the facility offers and for which the resident may be charged, and the amount of charges for those services; and inform each resident when changes are made to the items and services specified in paragraphs (5)(A) and (B) of this section.

The facility must inform each resident before, or at the time of admission, and periodically during the resident's stay, of services available in the facility and of charges for those services, including any charges for services not covered under Medicare or by the facility's per diem rate.

The facility must furnish a written description of legal rights which includes:
A description of the manner of protecting...
Continued from page 1 personal funds, under paragraph (c) of this section;

A description of the requirements and procedures for establishing eligibility for Medicaid, including the right to request an assessment under section 1924(c) which determines the extent of a couple's non-exempt resources at the time of institutionalization and attributes to the community spouse an equitable share of resources which cannot be considered available for payment toward the cost of the institutionalized spouse's medical care in his or her process of spending down to Medicaid eligibility levels.

A posting of names, addresses, and telephone numbers of all pertinent State client advocacy groups such as the State survey and certification agency, the State licensure office, the State ombudsman program, the protection and advocacy network, and the Medicaid fraud control unit; and a statement that the resident may file a complaint with the State survey and certification agency concerning resident abuse, neglect, and misappropriation of resident property in the facility, and non-compliance with the advance directives requirements.

The facility must comply with the requirements specified in subpart I of part 489 of this chapter related to maintaining written policies and procedures regarding advance directives. These requirements include provisions to inform and provide written information to all adult residents concerning the right to accept or refuse medical or surgical treatment and, at the individual's option, formulate an advance directive. This includes a written description of the facility's policies to implement advance directives and

Corrective Action:

Facility staff have a meeting set up with the Resident Council for 4/19/11 to discuss Resident Council concerns regarding choices significant to the residents, visitation access to family members, personal items in the rooms and mealtimes services.

Facility Administration will conduct a family meeting on 4/26/11 to discuss any family concerns.

Potential:

Residents in the facility have the potential to be affected.
Family members of residents in the facility have the potential to be affected.

Measures:

Administrative Staff will send a letter to family members to inform them of facility visitation process by 4/27/11.

Resident/family information letter that addresses visitation hours, private telephone access, dining service and personal items allowed in resident rooms will be included in every new admission packet and discussed by the Admissions Coordinator with the resident and/or family beginning 4/27/11.
F 156 Continued From page 2 applicable State law.

The facility must inform each resident of the name, specialty, and way of contacting the physician responsible for his or her care.

The facility must prominently display in the facility written information, and provide to residents and applicants for admission oral and written information about how to apply for and use Medicare and Medicaid benefits, and how to receive refunds for previous payments covered by such benefits.

This REQUIREMENT is not met as evidenced by:
Based on observation, resident/family/group interview, and a review of facility information provided to residents/families at admission, the facility failed to communicate at admission and during the residents stay at the facility, information regarding visitation hours, access to private telephone conversations, availability of a la carte dining service, and personal items allowed in resident’s rooms for twelve of twelve alert, oriented residents in the group interview.

The findings included:

Observation on the front door of the facility on March 29, 2011, at 7:30 a.m., revealed signage stating facility visitation hours were between 8:00 a.m. and 8:00 p.m. Continued observation revealed the front door was locked preventing access from the outside.

The Interdisciplinary Team meets with residents/families in a 72 hour care plan meeting to discuss and address concerns and resident status.
Activities staff reports any resident concerns brought forth in the resident council meetings to the appropriate department for follow-up.
Activities Staff and Social Services Staff will conduct random weekly resident interviews to ask about any concerns related to visitation hours, private telephone access, during service and personal items allowed in resident rooms.
Monitor:
Any concerns brought up by resident or family during the 72 hour care plan meeting are addressed with the appropriate staff or department and changes to the resident’s plan of care or staff in-service or education is conducted on an as needed basis.
Activities staff reports any concerns relayed during the resident council meeting to the Performance Improvement Committee in the monthly performance improvement meeting.
Activities and Social Services staff will report the results of the resident interviews to the Performance Improvement Committee in the monthly Performance Improvement Meeting for three months to ensure compliance.

</tr>
</thead>
<tbody>
<tr>
<td>F 156</td>
<td>Continued From page 3 Family interview on March 29, 2011, at 10:30 a.m., in a resident’s room, revealed facility visiting hours are 8:00 a.m. to 8:00 p.m.; the front and side doors remain locked until 8:00 a.m., preventing family members access to residents, and family members’ entrance into the building prior to 8:00 a.m. was dependent upon who answered the buzzer (attached at the outside door entrance). Continued family interview revealed if the family member was unable to gain entrance into the facility by 7:30 a.m., the resident could not get dressed in time to eat in the dining room. Group interview on March 29, 2011, at 2:00 p.m., in the Activity Room, with twelve alert, oriented residents revealed the resident’s family members were unable to enter the facility prior to 8:00 a.m. Review of facility provided documents (admissions information provided to residents and families) revealed no written information was provided to residents regarding visitation hours or the ability to gain access into the facility for off hour visitation (8 p.m.-8 a.m.). Interview with the Administrator on March 30, 2011, at 2:00 p.m., in the Conference Room, revealed family members were to be allowed entry into the building if they used the buzzer, and confirmed residents and families were not provided with information regarding access to the facility. Resident group interview on March 29, 2011, at 2:00 p.m., in the Activity Room, revealed residents in the group (who did not have a personal telephone in their room), were unaware</td>

</table>
Continued From page 4

of a phone available for private use. Resident #1 stated (in the group interview) residents had use of a cordless phone at the previous facility (from which the resident moved to the current facility), but cordless phones were not currently available at this facility for resident use.

Interview with the Administrator on March 30, 2011, at 2:05 p.m., in the Conference Room, revealed there was a cordless phone for use at the nurse's station.

Review of admission materials revealed no information was provided to residents at the time of admission or thereafter regarding the availability of use of a cordless phone at the nurse's station for private telephone calls.

Interview with the Administrator on March 30, 2011, at 2:15 p.m., in the Conference Room, revealed the Administrator depended on the Resident Council President to share with other residents information about the facility, and confirmed residents had not been informed of their right to make private telephone calls through the use of a cordless phone at the nurse's station.

Resident group interview on March 29, 2011, from 2:00 p.m. until 3:00 p.m., in the Activity Room, revealed the residents concern regarding personal items, such as picture frames, in the room. Continued group interview revealed residents were asked to take pictures out of picture frames and place the pictures on a small bulletin board in the resident's rooms.

Review of admission materials revealed no written information provided to residents about
Continued From page 5

what personal items were allowed and not
allowed in the room.

Interview with the Administrator on March 30,
2011, at 2:27 p.m., in the Conference Room,
confirmed residents had not been provided
written information about the specific items
allowed in the resident's room.

Observation of resident #17 on March 28, 2011,
at 4:35 p.m., in the day room (next to the dining
room) revealed the licensed nurse asked the
resident to go (to the resident's room) for a
fingerstick. Continued observation revealed the
resident became upset about leaving the day
room as the resident was waiting for the dining
room to open for dinner service. Continued
observation revealed the resident verbalized the
resident was afraid the dining room would be
closed if the resident did not get back to the
dining room at a certain hour.

Resident group interview on March 29, 2011,
from 2:00 p.m. until 3:00 p.m., in the Activity
Room, revealed residents were not allowed to eat
breakfast in the dining room if they arrived at the
dining room after 8:30 a.m. Continued group
interview revealed if the residents did not eat in
the dining room, they could not order food items
from the a la carte menu.

Interview with the Certified Dietary Manager
(CDM) on March 30, 2011, at 2:45 p.m., in the
Conference Room, revealed if residents arrived at
the dining room late (after the breakfast had been
served), the resident's tray was sent to the floor,
and someone would have to bring the tray back to
### F 156
**Summary Statement of Deficiencies**

Continued interview with the CDM confirmed no written information regarding dining room services and a la carte services was provided to the residents at admission, or thereafter.

### F 166
**Right to Prompt Efforts to Resolve Grievances**

A resident has the right to prompt efforts by the facility to resolve grievances the resident may have, including those with respect to the behavior of other residents.

**Corrective Action:**

Facility representatives will meet with the Resident Council on 4/19/11 to discuss bedtime snacks and availability of coffee prior to breakfast.

**Potential:**

Residents in the facility have the potential to be affected.

**Measures:**

- Resident bedtime snacks are provided by the dietary department daily and delivered to the nurses' stations to include the diabetic, nutritional, meal snacks and house snacks. Dietary staff has nurses initial label that snacks were received. The signed label is then taken to dietary and reviewed by the Certified Dietary Manager on a random basis. The nurse then instructs the certified nursing assistants to pass the bedtime snacks date implemented 4/14/11.

diabetes were provided individually prepared
snacks at bedtime. Continued interview with the
SDC revealed those residents (who had no
specific nutritional needs) could request a snack,
and the Registered Dietitian (RD) would need to
speak with the resident to "work the snack into
the resident's menu plan."

Interview with the Director of Nursing (DON) and
Administrator on March 30, 2011, at 2:30 p.m., in
the conference room, confirmed bedtime snacks
were to be offered to all residents; residents (with
no specific nutritional needs) did not have to talk
with the RD before they received a bedtime
snack, and the resident’s complaints about
bedtime snacks not offered consistently to all
residents was an unresolved grievance.

Review of resident council monthly meeting
minutes from September 2010 until March 2011,
revealed at the October 2010 resident council
meeting, residents complained about the lack of
coffee prior to 7:30 a.m. Continued review of
resident council minutes for December 2010,
revealed documentation of feedback from Dietary
to the residents: "Dining service starts at 7:30
a.m., no service available prior to that..."

Resident group interview on March 29, 2011, at
2:00 p.m., in the Activity Room, revealed
residents had been told the Ice Cream Parlor was
to be opened, with coffee service, but this had not
yet occurred. Continued group interview revealed
the residents still were unable to obtain coffee in
the morning until their breakfast tray was served.

Interview with the Director of Nursing (DON) and

The dietary staff provides coffee carts to
the nursing stations prior to breakfast for
nursing staff to offer to residents
beginning 4/14/11.

Nursing staff was in-service regarding
providing residents with bedtime snacks
by the Director of Nursing on 4/4/11.
Nursing Staff was in-service on 4/12/11
and 4/13/11 by the Director of Nursing
regarding providing bedtime snacks and
availability of coffee prior to breakfast.
Nursing staff will be in-service and
education will be provided in new hire
orientation. Nursing staff will be in-
service on or before 4-27-2011. The
associate will not be scheduled to work
the floor after 4-27-2011 until in-service
is completed.

Monitor:

Activities staff and Social Services staff
will conduct random weekly resident
interviews to ask about availability of
bedtime snacks and coffee. Activities
Director or Social Services Director will
report results of resident interviews to the
Performance Improvement Committee
monthly in the Performance
Improvement meeting for three months to
ensure compliance.

</tr>
</tbody>
</table>
F 221 Continued From page 12
February 17, 2011, with diagnoses including Fracture Femur, Cerebral Vascular Accident, Osteoporosis, and Mental Disorder.

Medical record review of the Interim Care Plan revealed the resident had a history of falls, was at risk for falls and on March 17, 2011, the facility implemented a low bed with a pressure sensitive alarm to the bed. Continued review revealed the facility implemented a scoop mattress and fall mats on February 27, 2011, and on March 14, 2011, implemented a blanket roll to the edges of the scoop mattress until foam rolls (bolsters) were available.

Medical record review revealed no assessment of the bolsters as a restraint.

Observation on March 30, 2011, at 10:45 a.m., revealed the resident in bed with a pressure alarm low bed, scoop mattress with bolsters to the bed and mats on the floor at bedside.

Interview with the Director of Nursing and the Corporate Nurse on March 30, 2011, at 1:30 p.m., in the conference room, confirmed the bolsters did restrict the resident’s movement and had not been assessed as a restraint.

MEASURES:

#3) Initial restraint assessments will be completed upon initiation of a restrictive device, then updated/reviewed quarterly and with a significant change status according to the Minimum Data Set schedule.

Director of Nursing or Assistant Director of Nursing will perform monthly audits to check completion of restraint assessments.

The Interdisciplinary Team will be in-serviced by Nursing Administration on 4/13/11 on process of completing restraint assessments.

Monitored:

#4) Monthly audits for completion of resident restraint assessments will be conducted by Director of Nursing and Assistant Director of Nursing and reported to the Performance Improvement Committee for three months for compliance.
F 226  Continued From page 13

This REQUIREMENT is not met as evidenced by:

Based on interview, a review of facility provided documents and facility policy review, the facility failed to correctly implement the facility policy on the investigation of allegations of abuse and neglect for two (#14 and #13) of seventeen sampled residents.

The findings included:

Review of facility provided documents revealed on February 25, 2011, resident #9 reported an allegation of abuse of resident #14 by CNA (Certified Nursing Assistant) #1. Review of facility provided documents revealed "Facility Investigation and Response...Person designated to investigate and follow-up with Concern... (Registered Nurse #1)...Date/Time of initial contact with concerned party...2/25/2011-1100 (11:00 a.m.)...Investigation Findings...No abuse discovered at this time...Buddy System on (residents #9 and #14) in place per staffing assignment sheet. Follow-up to continue c (with) on-going monitoring per charge nurses."

Review of facility provided documents revealed no written statement was obtained from CNA #1, other CNA's working with CNA #1, or other residents under CNA #1's care.

Review of facility provided documents revealed on February 28, 2011, resident #13 reported concerns about pain management, and concerns about lack of assessment of the resident's incision site and a swollen leg. Continued review...

F 226

Corrective Action:

Facility unable to complete corrective action for resident #13, she was discharged to home prior to the annual survey.

Facility unable to complete corrective action for residents #9 and #14 due to the time lapse from the report on the concern and comment to survey.

Certified Nursing Assistant #1 was reassigned on 2/25/11. Certified Nursing Assistant was in-serviced on 3/30/11 by the Staff Development Coordinator on Resident rights and resident abuse.

Potential:

Residents in the facility have the potential to be affected.

Measures:

The Staff Development Coordinator began in-service education for staff regarding Resident Rights and Resident abuse on 3/30/11.

The Director of Nursing conducted in-service education on 4/4/11 for all staff regarding resident abuse and/or neglect investigation, abuse regulations, abuse definitions, reporting alleged abuse, witness interview policy. Review of concern and comment form and how to complete.
The Director of Nursing conducted inservice education on 4/13/11 with department managers on abuse/neglect investigation and witness interview policy.

The Director of Nursing conducted inservice education with staff on 4/13/11 regarding abuse and neglect.

Associates will be inserviced and education will be provided in new hire orientation. Associates will be inserviced on or before 4-27-2011. The associates will not be scheduled to work the floor after 4-27-2011 until in-service is completed.

Concern and Comment forms to be reviewed for completion in Department Head Morning Meeting and a log will be maintained by the Social Services Director which will include documentation of investigation follow-up.

Monitor:

The Social Services Director will review the Concern and Comment Log for completion of investigation and follow-up in the Monthly Performance Improvement Meeting monthly for three months to ensure compliance.

HIXSON, TN 37343

**IDENTIFICATION NUMBER:**
445380

**DATE SURVEY COMPLETED:**
03/30/2011
F 242  Continued From page 16

outside.

Family interview on March 29, 2011, at 10:30
A.M., in a resident's room, revealed facility
visiting hours are 8:00 a.m. to 8:00 p.m., the front
and side doors remain locked from 8 p.m. until
8:00 a.m., preventing family members access to
visiting residents, and the family members
entrance into the building prior to 8:00 a.m. was
dependent upon someone answering the buzzer
(located on the outside of the door requiring
response from inside to allow access to unlock for
entry).

Group interview on March 29, 2011, at 2:00 p.m.,
in the Activity Room, with twelve alert, oriented
residents revealed the resident's family members
were unable to enter the facility prior to 8:00 a.m.

Review of facility provided documents
(admissions information provided to residents and
families) did not address visitation hours.

Interview with the Administrator on March 30,
2011, at 2:00 p.m., in the Conference Room,
revealed family members were to be allowed to
enter the building when they used the buzzer.

Resident group interview on March 29, 2011,
from 2:00 p.m. until 3:00 p.m., in the Activity
Room, revealed a concern residents had
regarding being allowed to place personal items,
such as picture frames, in the room. Continued
group interview revealed residents were asked to
remove pictures out of picture frames and place
the pictures on a small bulletin board in the
resident's room.
F 242 Continued From page 17

Review of admission materials revealed no written information provided to residents about what personal items were allowed and not allowed in the room.

Interview with the Administrator on March 30, 2011, at 2:27 p.m., in the Conference Room, confirmed residents had not been provided written information about the specific items allowed in the resident's room.

Observation of resident #17 on March 28, 2011, at 4:35 p.m., in the day room (next to the dining room) revealed the licensed nurse asked the resident to go (to the resident's room) for a fingerstick. Continued observation revealed the resident became upset about leaving the day room as (the resident) was waiting for the dining room to open for dinner service. Continued observation the resident verbalized (the resident) was afraid the dining room would be closed if (the resident) did not get to the dining room at a certain hour.

Resident group interview on March 29, 2011, from 2:00 p.m. until 3:00 p.m., in the Activity Room, revealed residents were not allowed to eat breakfast in the dining room if they arrived at the dining room after 8:30 a.m. Continued group interview revealed if the residents did not eat in the dining room, they could not order food items from the a la carte menu.

Interview with the Certified Dietary Manager (CDM) on March 30, 2011, at 2:45 p.m., in the Conference Room, revealed if residents arrived at the dining room late (after the breakfast had been...
F 242
Continued From page 18
served), the resident's tray was sent to the floor,
and someone would have to bring the tray back to
the dining room. Continued interview with the
CDM confirmed no written information regarding
dining room services and à la carte services was
provided to the residents at admission, or
thereafter.

F 250
483.15(g)(1) PROVISION OF MEDICALLY
RELATED SOCIAL SERVICE

The facility must provide medically-related social
services to attain or maintain the highest
practicable physical, mental, and psychosocial
well-being of each resident.

This REQUIREMENT is not met as evidenced by:
Based on medical record review and interview,
the facility failed to provide medically related
social services for one resident (#2) of seventeen
residents reviewed.

The findings included:

Resident #2 was admitted to the facility on March
16, 2011, with diagnoses including Cerebral
Vascular Accident, Hypertension, and Dysphagia.

Medical record review of the Admission orders
dated March 16, 2011, revealed the resident was
a Full Code.

Medical record review revealed no Physician
Orders for Scope of Treatment completed (POST

F 250
Corrective Action:
The Physician Orders for Scope of
Treatment (POST) form for resident #2
was completed by the resident's
responsible party on April 14, 2011.

Potential:
Residents admitted to the facility have
the potential to be affected.

Measure:
Social Services Director will complete a
100% audit of resident's POST forms for
completion by 4/18/11.

The POST forms will be completed
during the admission process.

The Social Services Director was
instructed to complete the POST form completion
process by the Executive Director on
April 15, 2011.

Health Information Management
Director performs an audit of new admits
charts that include completion of the
POST form and reports results to the
Executive Director.

F 279 Continued From page 20

This REQUIREMENT is not met as evidenced by:
Based on medical record review and interview, the facility failed to update the care plan for one resident (#4) of seventeen residents reviewed.

Resident #4 was admitted to the facility on February 17, 2011, with diagnoses including Fracture Femur, Cerebral Vascular Accident, Osteoporosis, and Mental Disorder.

Medical record review of the Interim Care Plan revealed the resident had a history of falls and was at risk for falls; March 17, 2011, the facility implemented a low bed with a pressure sensitive alarm to the bed. Continued review revealed the facility implemented a scoop mattress and fall mats on February 27, 2011, and March 14, 2011, blanket roll to edge of scoop mattress until foam roll (bolsters) available.

Medical record review of the care plan dated March 29, 2011, revealed the scoop mattress, floor mats, bolsters to bed were not addressed on the care plan.

Interview with the Director of Nursing and the Corporate Nurse on March 30, 2011, at 1:30 p.m., in the conference room, confirmed the care plan was not updated to reflect the current interventions to prevent an injury from a fall.

483.20(k)(3)(i) SERVICES PROVIDED MEET PROFESSIONAL STANDARDS

Measures:

#3) Upon completion of the comprehensive care plan for falls, the care plan coordinator will review the interim care plan interventions to ensure that the interventions are dated and carried over to the comprehensive care plan.

Care plan coordinator will be in-service on 4/13/11 by Director of Nursing regarding comparison of interim care plan fall interventions to comprehensive care plan.

Director of Nursing will review Care Plan Comparison Form completed weekly by the Care plan coordinator to audit that fall interventions are carried over from the interim to the comprehensive care plan.

Monitor:

#4) Director of Nursing will report findings of review of Care Plan Comparison Form to Performance Improvement Committee monthly for three months for compliance.
**F 281**

**Corrective Action:**

The Duragesic patch for Resident #4 was received from the pharmacy and placed on the resident on 3/22/11 prior to the survey. The resident has a pain assessment every shift utilizing the 0-10 pain scale with results documented on the Medication Administration Record.

The pain assessment for Resident #6 utilizing the 0-10 pain scale was added to the Medication Administration Record every shift on 4/1/11.

Cipro order for Resident #6 was clarified with the physician on 3/27/11 prior to the survey and transcribed to the Medication Administration Record.

Urinalysis was repeated for this resident on 3/29/11.

---

**Summary Statement of Deficiencies:**

This REQUIREMENT is not met as evidenced by:

- Based on medical record review and interview, the facility failed to obtain a prescription refill timely for one resident (#4) of seventeen residents reviewed. For one (#6) of seventeen residents, the facility failed to complete pain assessments per protocol; failed to promptly transcribe onto the Medication Administration Record an order for antibiotic treatment, and failed to document administration of the antibiotic medication.

The findings included:

- Resident #4 was admitted to the facility on February 17, 2011, with diagnoses including Fracture Femur, Cerebral Vascular Accident, Osteoporosis and Mental Disorder.

Medical record review of a Physician's order dated February 17, 2011, revealed "...Duragesic 12 mcg/hr (micrograms/hour) 1 patch top (topical) q (every) three days...".

Medical record review of a Nurse's note dated March 21, 2011, at 2:00 p.m., revealed "waiting for pharmacy to send Duragesic Patch (pain medication) 12 mcg. Order written for patch to be applied up arrival from pharmacy."

Medical record review of the Nurse's note dated March 21, 2011, at 11:00 p.m., Night shift notified to apply Duragesic patch..."
F 281  Continued From page 22
Medical record review of the Pharmacy shipment order dated March 22, 2011, revealed the facility received the Duragesic patch at 4:09 p.m.

Medical record review of the Nurse's notes for March 21, 2011, through March 22, 2011, revealed no documentation of any signs or symptoms of pain.

Interview with the Director of Nursing on March 29, 2011 at 10:00 a.m., in the conference room, revealed the Pharmacy needed a new prescription from the Physician to refill the medication and there was a twenty-four hour delay in receiving the medication.

Resident #6 was admitted to the facility on February 15, 2011, with diagnoses including Chronic Pain Syndrome. Medical record review of nurse's notes, dated March 20, 2011, revealed "Resident is complaining of neck pain..."

Medical record review of current physician's orders revealed a current order for Norco (pain medication) 5 mg-325 mg (milligrams) 1 every four hours as needed for breakthrough pain.

Medical record review revealed a pain assessment was completed on the resident on February 15, 2011. Continued medical record review of the February and March, 2011, MARS (Medication Administration Records) revealed no further pain assessments.

Medical record review of the resident's March 2011 MAR (Medication Administration Review) revealed no documentation the resident was administered pain medication on March 20, 2011.

Potential:
Residents at risk for pain have the potential to be affected.
Residents with medication orders have the potential to be affected.

Measures:
The Director of Nursing notified the Pharmacy of the lapse in Prescription for the resident on 3/23/11. The Pharmacy is now sending the Director of Nursing a Class 2, 3, 4, 5 Prescription Register weekly so that the facility will know which prescriptions will need refills soon. The Pharmacy is also faxing to the Director of Nursing Monday – Friday a list of prescriptions sent to the physician for signature that still needs follow-up.
The Director of Nursing or Assistant Director of Nursing will review the pharmacy reports weekly and notify the physician of any needed prescriptions.

Every resident April Medication Administration Record was checked by Nursing Administration on 3/31/11 for the presence of a pain assessment every shift utilizing 0-10 scale.

The Director of Nursing or Assistant Director of Nursing will perform weekly audits for three months to assess that each resident has a pain scale on the Medication Administration Record and is being documented every shift.

Medication orders are to be faxed to the pharmacy. After hours, the nurse is to call the pharmacy and tell them that they are faxing a new order. The nurse is to place the medication order fax confirmation copy and place it in the order checks notebook. The nurse is to sign off that this medication order was transcribed to the Medication Administration Record. During shift change report, the off-going nurse will report off with the on-coming nurse what new orders were...
received. The on-coming nurse will review the new orders in the notebook and will sign that they also checked the order for proper transcription. This process will be repeated for the next shift, so that three consecutive shifts are checking the medication orders for proper transcription to the medication administration record.

The Director of Nursing provided in-service education to the licensed nurses on 4/4/11 that included: ordering medications timely, notifying the Director of Nursing for any unavailable medication, use of the Emergency Medication box, the pain level is to be assessed every shift and documented on the medication administration record.

The Director of Nursing will in-service licensed nurses regarding medication order transcription process beginning 4/14/11.
Continued From page 23 after complaining of pain.

Interview with the Director of Nursing on March 30, 2011, at 3:02 p.m., in the Library, revealed the facility protocol is to assess a resident's pain every shift by documenting the level of pain on the MAR.

Interview with the Director of Nursing on March 30, 2011, at 3:05 p.m., in the Library, confirmed the nurse did not document administering pain medication after the resident complained of neck pain, the nurse failed to promptly transcribe the antibiotic order, and the resident's level of pain was not assessed every shift on the February and March, 2011 MARS.

Medical record review of nurse's notes revealed on March 17, 2011, revealed the resident was transferred to the emergency room at 5:05 p.m., due to a temperature of 100 degrees Fahrenheit, nausea and vomiting, and poor food intake during the 7:00 a.m. to 3:00 p.m. shift. Continued review of nurse's notes revealed the resident returned to the facility on March 18, 2011, at 1:00 a.m., with a physician's order for "Cipro (antibiotic) 500 mg (milligrams) tab (tablet) PO (orally) 1 tab BID (twice a day) for UTI (urinary tract infection)."

Medical record review of the March 2011 Medication Administration Record (MAR) (computerized print out) revealed the Cipro order was handwritten on the MAR, and there was no documentation the resident received the Cipro until March 27, 2011.

Medical record review of physician's orders revealed a "Fax Order Request/Notification Form", noted as "priority" on March 27, 2011, at 7:55 a.m. Continued review of the "Fax Order Request..." revealed "Pt. (patient) was Dx

An in-service education session for all licensed nurses is scheduled for 4/27/11 with the pharmacy to review pharmacy/drug ordering process.

Licensed nurses will be in-serviced and education will be provided in new hire orientation. Licensed nurses will be in-serviced on or before 4-27-2011. The associates will not be scheduled to work the floor after 4-27-2011 until in-service is completed.

Director of Nursing, Assistant Director of Nursing or Weekend Supervisor will review order checks notebook daily for three months to ensure that the nurses are completing order checks.

Monitor:

The Director of Nursing will report results of the prescription checks, pain scale audits order review checks to the Performance Improvement Committee during the monthly Performance Improvement Meeting for three months.

assistance with hygiene.

Medical record review of the Monthly Flow Report for the Month of February revealed the resident received a total of 6 showers. Medical record review of the Monthly Flow Report for the March 2011, revealed the resident received 2 showers, with the last shower dated March 14, 2011.

Interview with the resident on March 30, 2011, at 10:50 a.m., in the library confirmed the resident did not receive showers as requested.

Interview on March 30, 2011, with the Director of Nursing and the Corporate Nurse in the conference room, confirmed the residents are to be showered 2-3 times a week and as requested or needed by the resident.

F 323

SS-G

483.25(h) FREE OF ACCIDENT HAZARDS/SUPERVISION/DEVICES

The facility must ensure that the resident environment remains as free of accident hazards as is possible; and each resident receives adequate supervision and assistance devices to prevent accidents.

This REQUIREMENT is not met as evidenced by:

Based on medical record review, observation and interview, the facility failed to implement interventions to prevent an injury from a fall/fracture of the right elbow resulting in harm to resident #4 of seventeen residents reviewed.

F 312

The Staff Development Coordinator in-serviced nursing staff on 3/30/11 regarding shower schedules to be followed per facility policy.

The Director of Nursing in-serviced nursing staff on 4/4/11 on resident shower schedule. Nursing staff will be in-serviced and education will be provided in new hire orientation.

Nursing staff will be in-serviced on or before 4-27-2011. The associates will not be scheduled to work the floor after 4-27-2011 until in-service is completed.

Showers are to be documented in RITA.

The charge nurse is to be notified of any resident refusal of showers and document the refusal on the 24 hour report.

Revision of shower schedule as needed to accommodate residents needs/wishes.

The Director of Nursing or Assistant Director of Nursing will print and review RITA documentation twice weekly for three months to ensure residents are receiving showers as scheduled.

Monitor:

#4) The Director of Nursing will report findings of RITA documentation review regarding showers to Performance Improvement Committee during monthly meeting for three months.

4-27-2011
Continued From page 26

The findings included:

Resident #4 was admitted to the facility on February 17, 2011, with diagnoses including Fracture Femur, Cerebral Vascular Accident, Osteoporosis and Mental Disorder.

Medical record review of the Physician Recapitulation Orders dated February 17, 2011 revealed "...NWBE RLE( non weight bearing Right Lower Extremity)...

Medical record review of a Fall Risk Assessment dated February 17, 2011, revealed the resident was high risk for falls.

Medical record review of the Interim Care Plan dated February 17, 2011, revealed the facility had implemented a low bed with a pressure sensitive alarm to the bed.

Medical record review of a Nurse's note date February 26, 2011, revealed "Pt (patient) found on knees upon entering room by staff. Bed alarm ringing...both knees si (slightly) red, no open areas noted. No d/o (complaints) of pain..."

Medical record review of the fall investigation dated February 26, 2011, revealed "...Resident demonstrated use of call light. Discontinue TED (anti-embolism hose) hose..."

Medical record review of a Nurse's note dated February 27, 2011, at 5:20 a.m. revealed "Resident found on the floor by...bed 'I thought I was at home'...does d/o/complain of it (right) elbow pain. Moves arms freely..."

Corrective Action:

Resident #4 was assessed for fall risk upon admission and currently has the following interventions in place to help reduce falls: she is on Physical and Occupational Therapy caseloads, she utilizes a low bed with parameter mats, scoop (bolster-sided) mattress with blanket roll, call-light in reach, non-skid footwear and she is on the falling star program.

Resident has had three falls since admission. The first fall was 2/26/11, the new interventions implemented post-fall were re-education to utilize the call-light for assistance, for which resident expressed understanding.

Resident also discontinued TED hose which would prevent her from sliding on the floor due to the slick material of the TED hose. The second fall was on 2/27/11 and a scoop (bolster-sided) mattress and parameter mats to bedside were
implemented. The third fall was on 3/12/11 and the new intervention was to add a blanket roll to scoop (bolster-sided) mattress. She has been free from falls since 3/12/11.

Potential:

Residents at risk for falls have the potential to be affected.

Measures:

Residents are assessed for fall risk upon admission, after each fall, with each significant change in status and quarterly with the Minimum Data Set assessment. Interventions are implemented for each resident according to individual need.
F 323 Continued From page 27
Medical record review of the Physician's order dated February 27, 2011, revealed "x-ray of rt elbow stat (immediately). Fall pads to floor around bed."

Medical record review of the x-ray report dated February 27, 2011, revealed "...Slightly distracted Olecranon (elbow) fracture..."

Medical record review of the fall investigation dated February 27, 2011, revealed the facility implemented a scoop mattress and mats to the floor upon the resident's return to the facility.

Medical record review of a Nurse's note dated March 9, 2011, revealed "pt (patient) NPO (nothing by mouth) (after) midnight...Due to surgery tomorrow."

Medical record review of a Nurse's note dated March 11, 2011, revealed the resident "returned from (local hospital) after surgery..."

Observation on March 30, 2011, at 10:45 a.m, revealed the resident in bed with pressure alarm low bed, scoop mattress with bolsters to the bed and mats on the floor at bedside.

Interview with the Director of Nursing and the Corporate Nurse on March 29, 2011, at 1:30 p.m., in the conference room, confirmed on February 26, 2011, the resident fell from the bed with no injury and the facility removed the TED hose and provided education on use of the call light. Continued interview confirmed the facility failed to implement interventions to prevent an fall/injury after the fall on February 26, 2011, and on February 27, 2011, the resident sustained a second fall from the bed resulting in a fracture to Charge nurses implement new fall reduction interventions post fall.
The weekend supervisor and nurse on call are additional resources that the nurse may utilize as needed for questions and concerns after hours. We also put fall interventions on the care guide for the C.N.A.'s. IDT reviews and follow up on falls Monday through Friday during clinical event meeting.

Residents are discussed by the Interdisciplinary Team after each fall and care planned interventions are reviewed and revised as needed.
The Director of Nursing provided in-service education to nursing staff on 4/4/11 to review falls management, fall risk assessment, falling star program, risk factors for falls, additional interventions and approaches to decrease the risk of falls and investigation of a resident fall. Licensed Nurses will be in-serviced and education will be provided in new hire orientation. Licensed Nurses will be in-serviced on or before 4-27-2011. The associates will not be scheduled to work the floor after 4-27-2011 until in-service is completed. Fall intervention devices are kept in supply room where the charge nurse has access. The Director of Nurses or Assistant Director of Nurses reviews the Incident Follow-up and Recommendation Form to assess that new interventions were implemented and effective after a fall.

Monitor:
The Director of Nurses discusses falls and trends with the Interdisciplinary Team in the monthly Performance Improvement Meeting.

Continued from page 29 as ordered.

Observation of a medication pass on March 29, 2011, at 5:30 p.m., with LPN #2, on the 100 hall, revealed LPN #2 administered Novolog Insulin 10 units to Resident #15. Review of the physician's order dated March 2011, revealed Novolog Insulin 20 units for blood sugars above 400 and notify the Medical Doctor.

Interview with LPN #2 on March 29, 2011, at 6:30 p.m., at the 100 hall nursing station confirmed 10 units of Novolog Insulin was administered instead of 20 units. Continued interview confirmed the physician had been notified of an elevated blood sugar over 400 and LPN #2 had not received a return phone call from the physician.

Resident #9 was admitted to the facility on October 12, 2007, with diagnoses including Schizophrenia, Hypertension, Difficulty Walking.

Medical record review of the Physician Recapitulation orders for the month of March 2011, revealed "Omeprazole(Gastric Reflux Medication) 20 mg cap 1 cap per mouth twice daily.

Observation on March 29, 2011, at 8:15 a.m., during the medication pass revealed Licensed Practical Nurse (LPN) #3 administered Omeprazole 20 mg by mouth.

Potential:

#2) Residents receiving medications have the potential to be affected.

Measure:

#3) Director of Nursing inserviced licensed nursing staff on 4/4/11 regarding five rights of medication administration. Licensed nurses will be inserviced and education will be provided in new hire orientation. Licensed nurses will be inserviced on or before 4-27-2011. The associates will not be scheduled to work the floor after 4-27-2011 until in-service is completed.

Director of Nursing provided one-on-one education with LPN #1, LPN #2 is an RN and LPN #3 regarding medication administration to include the five rights of medication administration on 4/13/11.

Review of the package insert revealed "... should be taken before eating..."

Interview with the Corporate Nurse on March 30, 2011, at 2:15, in the conference room, confirmed Omeprazole is to be given before meals.

463.25(m)(2) RESIDENTS FREE OF SIGNIFICANT MED ERRORS

The facility must ensure that residents are free of any significant medication errors.

This REQUIREMENT is not met as evidenced:

Based on medical record review and interview, the facility failed to ensure one (#6) of seventeen sampled residents was free of a significant medication error.

The findings included:

Resident #6 was admitted to the facility on February 15, 2011, with diagnoses including Chronic Pain Syndrome, Congestive Heart Failure and Chronic Obstructive Pulmonary Disease.

Medical record review of nurse's notes revealed on March 17, 2011, the resident was transferred to the emergency room at 5:05 p.m., due to a temperature of 100 degrees Fahrenheit, nausea and vomiting, and poor food intake during the 7:00 a.m. to 3:00 p.m. shift. Continued review of nurse's notes revealed the resident returned to the facility on March 18, 2011, at 1:00 a.m., with a...
Measures:

Medication orders are to be faxed to the pharmacy. After hours, the nurse is to call the pharmacy and tell them that they are faxing a new order. The nurse is to place the medication order fax confirmation copy in the order checks notebook. The nurse is to sign off that this medication order was transcribed to the Medication Administration Record. During shift change report, the off-going nurse will report off with the on-coming nurse what new orders were received. The on-coming nurse will review the new orders in the notebook and will sign that they also checked the order for proper transcription. This process will be repeated for the next shift, so that three consecutive shifts are checking the medication orders for proper transcription to the medication administration record.

The Director of Nursing will in-service licensed nurses regarding medication order transcription process beginning 4/13/11.
F 333 Continued From page 31

physician's order for "Cipro (antibiotic) 500 mg (milligrams) tab (tablet) PO (orally) 1 tab BID (twice a day) for UTI (urinary tract infection)."

Medical record review of the March 2011 Medication Administration Record (MAR) revealed there was no documentation the resident received the Cipro until March 27, 2011. Medical record review of physician's orders revealed a "Fax Order Request/Notification Form", noted as "priority" on March 27, 2011, at 7:55 a.m. Continued review of the "Fax Order Request ..." revealed "Pt. (patient) was Dx (diagnosed) c (with) UTI and Cipro ordered 3/18/11 500 mg PO BID. Pt has not been given Cipro. Need new orders please. Thank you." Medical record review of physician's orders revealed a clarification order was obtained on March 27, 2011, at 3:11 p.m., for Cipro 500 mg 1 orally twice a day "til all gone".

Interview with the Director of Nursing on March 29, 2011, at 10:45 a.m., in the conference room, confirmed the resident did not receive the antibiotic as ordered by the physician for nine days.

Director of Nursing, Assistant Director of Nursing or Weekend Supervisor will review order checks notebook daily for three months to ensure that the nurses are completing order checks.

Monitor:

The Director of Nursing will report results of order review checks to the Performance Improvement Committee during the monthly Performance Improvement Meeting for three months.

483.35(5) FOOD PROCURE, STORE/PREPARE/SERVE - SANITARY

The facility must -
(1) Procure food from sources approved or considered satisfactory by Federal, State or local authorities; and
(2) Store, prepare, distribute and serve food under sanitary conditions
**F 371**

**Corrective Action:**

- Pans in the dietary department were re-washed and air-dried on 3/28/11.
- The food was properly stored in the freezer and the cooler on 3/28/11.
- The leftovers were discarded on 3/28/11.
- The carbon build-ups on two pans were cleaned on 3/28/11.
- Unable to complete corrective action for the thermometer wiped with a paper towel. Dietary staff was in-service on 4-13-2011, proper sanitation techniques used during food temperature check process.

**Potential:**

Residents in the facility have the potential to be affected.

**Measures:**

The Regional Director of Clinical Services provided 1:1 education to the Certified Dietary Manager regarding the proper sanitation techniques used during the food temperature process on 3/30/11.

SUMMARY STATEMENT OF DEFICIENCIES
(EACH DEFICIENCY MUST BE PRECEDED BY FULL
REGULATORY OR LSC IDENTIFYING INFORMATION)

F.371 Continued From page 33
Hamburger patties and the pork roast were left
open to the air; and the thermometers were
cleaned with a paper towel after taking the food
temperatures.

F.372 DISPOSE GARBAGE & REFUSE
PROPERLY

The facility must dispose of garbage and refuse
properly.

This REQUIREMENT is not met as evidenced by:
Based on observation and interview, the facility
failed to maintain the dumpster area in a
clean sanitary manner.

Observation on March 28, 2011, at 11:45 a.m.,
of the dumpster area revealed the facility had two
dumpsters, one for the cardboard boxes and one
for the trash. Continued review revealed the two
doors on the dumpster, used for trash, were left
open to the rain; garbage bags were left opened
inside the dumpster and one bag at the door was
split open allowing liquids to spill out into the
track of the door and around the opening.
Continued observation revealed the dumpster
which contained cardboard boxes was
overflowing, with boxes stacked on the outside
of the dumpster, and one side of the top opened to the
rain. Continued observation revealed a large
housekeeping trash cart used to transport trash to
the dumpster, left behind the dumpsters, and was
half full of water.

Interview with the Certified Dietary Manager on
March 28, 2011, at 12:30 p.m., at the dumpster
area, confirmed the dumpsters were over filled,

Corrective Action:
Dumpster and area was cleaned on
3/28/11.

Potential:
Residents in the facility have the
potential to be affected.

Measure:
Facility has added additional waste
refuse pick up to ensure sanitary
Dumpster environment on April 1, 2011.
The Certified Dietary Manager and
Dietary Staff perform a Dumpster
inspection daily and complete a check
sheet.

Maintenance pressure washes the
Dumpster and surrounding area weekly
and maintains a log.

Monitor:
The Certified Dietary Manager will
provide a summary of results of dumpster
inspections to the Performance
Improvement Committee. During the
monthly Performance Improvement
Meeting monthly for three months to
ensure compliance.
