### F 241 - Dignity and Respect of Individuality

The facility must promote care for residents in a manner and in an environment that maintains or enhances each resident's dignity and respect in full recognition of his or her individuality.

This REQUIREMENT is not met as evidenced by:

Based on observation and interview the facility failed to respond to a resident's repeated calls for help, resulting in an incontinent episode for one resident (#26) of twenty-six residents reviewed.

The findings included:

- Resident #26 was admitted to the facility on December 8, 2008, with diagnoses including Dementia, Psychosis, Adult Failure to Thrive, Dysphagia, Peripheral Neuropathy, and Status Post Above Knee Amputation.
- Medical record review of the Minimum Data Set, dated November 21, 2011, revealed the resident was cognitively impaired, with deficits in memory, and decision making, and was dependent for activities of daily living.
- Observation on December 6, 2011, at 2:28 p.m., in the common area outside the resident's room, revealed the resident calling out for assistance, "hey, hey, come here" repeatedly. Continued observation revealed two staff members in close proximity to the resident as the resident continued calling out for assistance. Further observation on December 6, 2011, from 2:28 p.m. to 2:47 p.m., outside the resident's room, revealed the resident...

continuing to call out for assistance, and at 2:47 p.m., the resident began calling out, "I'm wet now, come here", repeatedly.

Continued observation outside the resident's room, at 2:50 p.m., revealed, Certified Nursing Assistant (CNA) #1, entered the resident's room.

Further observation and interview with CNA #1, on December 6, 2011, from 2:50 p.m. to 2:52 p.m., in the resident's room, revealed the resident had an incontinent episode, and confirmed there was a 22 minute delay in responding to the resident's repeated requests for assistance.

F 281 483.20(k)(3)(i) SERVICES PROVIDED MEET PROFESSIONAL STANDARDS

The services provided or arranged by the facility must meet professional standards of quality.

This REQUIREMENT is not met as evidenced by:
Based on medical record review, review of manufacturer's instructions, observation, and interview, the facility failed to instruct resident #20 prior to use and failed to follow manufacturer's recommendations after use for use of inhalants for one (#20) of twenty-five residents reviewed.

The findings included:
Resident #20 was admitted to the facility on September 22, 2007, with diagnoses including Asthma.

Medical record review of the Minimum Data Set dated November 20, 2011, revealed the resident...
F 281 Continued From page 2

had a Brief Interview for Mental Status (BIMS) score of 15 which indicates the resident is cognitively intact.

Medical record review of the Physician's recaptulation orders for December 2011, revealed "...Advair (type of inhaler)...give one inhalation every day..."

Observation of the Licensed Practical Nurse (LPN) #2 in the resident's room on December 6, 2011, at 8:15 a.m., revealed LPN #2 administered the Advair and failed to give instruction on medication use prior to administration. Continued observation at this time revealed the resident took one quick puff without holding the breath and handed the Advair back to the LPN.

Review of facility policy, Oral Inhalation Administration, revealed "...6. Instruct the resident to...breathe out through mouth...8. Instruct resident to inhale slowly...11. Have resident rinse...mouth and spit out the rinse water..."

Review of the manufacturer's instructions revealed "...Rinse your mouth with water after breathing in the medicine. Spit the water out. Do not swallow..."

Interview with LPN #2, at the 200 hall nurse's desk, on December 6, 2011, at 8:30 a.m., confirmed the facility policy and manufacturer's instructions were not followed.

Interview with the Director of Nursing (DON) in the conference room, on December 6, 2011, at 2:30 p.m., confirmed the facility failed to follow the policy for oral inhalation administration.

Based on the comprehensive assessment of a resident, the facility must ensure that a resident who is fed by a naso-gastric or gastrostomy tube receives the appropriate treatment and services to prevent aspiration pneumonia, diarrhea, vomiting, dehydration, metabolic abnormalities, and nasal pharyngeal ulcers and to restore, if possible, normal eating skills.

This REQUIREMENT is not met as evidenced by:
Based on medical record review, observation, facility policy review, and interview, the facility failed to provide appropriate treatment and services to prevent aspiration pneumonia for one resident (22) of twenty-six residents reviewed.

The findings included:
Resident # 22 was admitted to the facility on August 31, 2010, with diagnoses including Spinal Cord Injury, Depression, and Peg tube Placement.

Medical record review of the Physician’s recaps/plation orders for December 211, revealed "...give 30 cc (cubic centimeters) water flushes before and after medications...".

Observation on December 6, 2011, at 9:15 a.m., in the resident room, revealed Licensed Practical Nurse (LPN) #3 administering the 30 cc water flushes. Continued observation at this time revealed LPN #3 completed the medication pass and failed to verify proper positioning of the

feeding tube.

Review of facility policy, Tube Feeding Administration, revealed "...Note: Verify proper positioning of feeding tube..."

Interview with LPN #3 outside the resident room, on December 6, 2011, at 9:28 a.m., confirmed the feeding tube placement was not checked prior to water and medication administration.

Interview with the Director of Nursing (DON) in the conference room, on December 6, 2011, at 2:30 p.m., confirmed the facility failed to follow the policy for tube feeding administration.

F 372
The facility will maintain a sanitary environment in the dumpster area. All mattresses will be appropriately discarded for removal by sanitation services.

This area will be monitored by the Administrator, Director of Environmental Services, and the Dietary Manager on a daily basis.

This issue was addressed at the December 16, 2011 Quality Assurance Committee meeting and will be reviewed for compliance periodically thereafter.
