Harriman Care & Rehabilitation Center does not believe and does not admit that any deficiencies existed, before, during or after the survey. The Facility reserves all rights to contest the survey findings through informal dispute resolution, formal appeal proceedings or any administrative or legal proceedings. This plan of correction is not meant to establish any standard of care, contract obligation or position and the Facility reserves all rights to raise all possible contentions and defenses in any type of civil or criminal claim, action or proceeding. Nothing contained in this plan of correction should be considered as a waiver of any potentially applicable Peer Review, Quality Assurance or self critical examination privilege which the Facility does not waive and reserves the right to assert in any administrative, civil or criminal claim, action or proceeding. The Facility offers its response, credible allegations of compliance and plan of correction as part of its ongoing efforts to provide quality of care to residents.

Any deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See Instructions.) Except for nursing homes, the findings stated above are disclosable 60 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.
HARRIMAN CARE & REHAB CENTER

F 279  Continued From page 1

Based on medical record review, observation, and interview, the facility failed to update the care plans to include activities of daily living needs (ADLs) for two residents (#10, #24) of twenty-four residents reviewed.

The findings included:

Resident #10 was admitted to the facility on November 4, 2008, with diagnoses including Depression and Alzheimer's Disease.

Medical record review of the physical therapy discharge summary dated March 9, 2011, revealed "...Nursing staff needs to continue bed program to allow patient to rest which helps sitting posture during the day..."

Medical record review of the care plan updated March 15, 2011, revealed the bed program was not addressed on the care plan.

Observation on March 21, 2011, at 9:20 a.m., revealed the resident seated in high back wheelchair leaning to the left side, with the left arm hanging down over the arm of the wheelchair without support.

Interview with the Unit Manager on March 21, 2011, at 4:00 p.m., confirmed the resident had a history of leaning to the left side. Continued interview revealed the bed program was to lay the resident down after meals for rest periods and this was not updated on the resident's care plan.

Resident #24 was readmitted to the facility on

F – 279 Develop
Comprehensive Care Plans.
1. The bed program for Resident #10 was added to the care plan on 3/23/11 to lay resident down in bed for naps after meals. Resident #24 was a closed record review and is not currently a resident at the facility. The grievance forms were up-dated on 4/9/11 to include a care planning option to ensure that care plans are up-dated as needed with any care intervention changes.
2. Residents have the potential to be affected.
3. Therapy department, MDS Coordinators, Unit Managers, and Social Service Director will be in-serviced by the Director of Nursing or designee on or before 4/20/11 regarding updating resident care plans with any changes in
F 279. Continued From page 2

August 27, 2010, with diagnoses including Congestive Heart Failure, Renal Failure, Muscle Weakness, Diabetes Mellitus, Dementia, and Cardiomyopathy.

Medical record review of the Minimum Data Set dated September 2, 2010, revealed the resident had some short-term memory problems and had mild cognitive difficulty in new situations only.

Medical record review of a Social Service Progress Note dated September 2, 2010, revealed "...resident expressed concerns about...care. Green form filled out. Unit Manager to address concerns..."

Medical record review of Resident/Visitor/Grievance/Complaint Form dated September 2, 2010, completed by RN (Registered Nurse) #1, revealed "...Resident's family asked Social Services to speak to resident because (resident) had some concerns. Resident states...feels...is not being treated well. Res. (resident) said sat in...recliner until...feet swelled. Res. also requested to be laid down on bed (because)...w/o (wheelchair) was in front of...bed. Then res. said...had too many blankets on...and...couldn't move. Res. also says people are not helping...turn in...bed. Res says staff talks...(resident) to do it...res reports...laid in bed for 5 hours before someone actually turned...res says...really wants staff to be patient with (resident)...". Continued review revealed "...Action Taken: Staff inserviced...". Documentation of the in-service conducted on September 8, 2010, during which staff was inserviced on care of the resident included "...1. When (resident) requests to be turned even if it has not been two hours, turn (resident). 2. When (resident) asks to be put...care interventions related to resident grievance forms and therapy plans. Director of Nursing or designee and Director of Social Services or designee will conduct an audit of the grievance forms weekly x 4 weeks to ensure that care plans are up-dated as needed.

4. Audit findings will be reported by the DON or designee to the PI committee at the next monthly meeting.

(PI committee consists of: minimally: Administrator, DON, Unit Managers, and SSD).

PI Committee will Review, discuss and make any necessary revisions or recommendations.
Medical record review of the Comprehensive Care Plan, page #7, dated September 15, 2010, revealed "...Problem: resident has ADL (activities of daily living) Self Care Deficit & is at risk for complications related to Deficit. Resident needs moderate assistance with ADL's due to CHF (Congestive Heart Failure), weakness..." with approaches including "...Staff to provide only the amount of assistance/supervision to meet the Resident's needs for all ADL's. Turn and reposition, shifting weight to enhance circulation, and Staff to assist with transfers as needed..."

Interview with Social Worker #1, on March 23, 2011, at 2:05 p.m., in the conference room, confirmed the resident's Care Plan had not been updated to reflect the care interventions documented in the September 8, 2010, Inservice.

Complaint #26762

483.20(k)(3)(i) SERVICES PROVIDED MEET PROFESSIONAL STANDARDS

The services provided or arranged by the facility must meet professional standards of quality.

This REQUIREMENT is not met as evidenced by:
Based on medical record review, facility policy review, and interview, the facility failed to notify the physician of laboratory results, resulting in a delay in treatment of a urinary tract infection, for one resident (#11). and failed to follow
F-281 Services Provided Meet Professional Standards.
1. FNP ordered Antibiotic treatment for resident #11 on 2/16/11. (Tobramycin IM x 7 days). Resident #24 was a closed record review.
2. Residents with UTI's have the potential to be affected.
3. Unit Managers and Charge Nurses will be in-serviced by the Director of Nursing or designee regarding timely MD notification of lab results by 4/19/11. Labs are to be audited by Director of Nursing or designee five days per week for two weeks and then weekly for two weeks and then monthly for three months for timely MD notification. Charge Nurses will be In-serviced by 4/19/11 by Director of Nursing or designee concerning following the facility bowel...

|       | documentation Hospice was notified of laboratory  
|       | results until February 15, 2011, and no  
|       | documentation the physician or NP was made  
|       | aware of the results until February 16, 2011,  
|       | when the above Physician's order for Tobramycin  
|       | was obtained. (a five day delay)

regimen protocol. The Director of Nursing or designee will conduct an audit of the bowel sheets two days per week for two weeks and then weekly for two months.

4. Audit findings will be reported by the DON to the PI Committee monthly until the audit schedule is completed. (PI committee consists of minimally: Administrator, DON, Unit Managers, and SSD). PI Committee will review, discuss and make any necessary revisions or recommendations.
Resident #24 was readmitted to the facility on August 27, 2010, with diagnoses including Congestive Heart Failure, Renal Failure, Muscle Weakness, Diabetes Mellitus, Dementia, and Cardiomyopathy.

Medical record review of the Minimum Data Set dated September 2, 2010, revealed the resident had some short-term memory problems and had mild cognitive difficulty in new situations only.

Medical record review of the "BM (Bowel Movement) Record/Regimen Flow Sheet" for September 2010, revealed no bowel movement documented September 1-6, (six days), and a notation "...Last BM 8/29..."

Medical record review of the Physician's Orders for September 1-30, 2010, revealed "...if no BM X (times) 3 days admin. (administer) 1 tab (tablet) Bisacodyl @ (at) 8 pm ...if no BM by AM of 4th day admin. Bisacodyl supp (suppository) rectally ...if no BM by PM of 4th day admin. Fleet's enema till clear ..."

Medical record review of the Medication Administration Record for September 1-30, 2010, revealed the resident had received two Bisacodyl tablets at 8:00 p.m. on September 1, 2010, and no further interventions documented for the month of September.

Interview with the DON on March 23, 2011, at 11:30 a.m., in the conference room, confirmed the resident had no bowel movement documented September 1-6, 2010, and the facility failed to follow the physician's orders.

Complaint #28762

F 312: 483.25(a)(3) ADL CARE PROVIDED FOR DEPENDENT RESIDENTS

A resident who is unable to carry out activities of daily living receives the necessary services to maintain good nutrition, grooming, and personal and oral hygiene.

This REQUIREMENT is not met as evidenced by:

Based on medical record review, observation, and interview, the facility failed to provide nail care for one (#3) of twenty-four residents reviewed.

The findings included:

Resident #3 was admitted to the facility on March 24, 2008, with diagnoses including Macular Degeneration, Vascular Dementia, and Mood Disorder.

Medical record review of the Minimum Data Set dated February 27, 2011, revealed resident #3 had impaired short and long term memory and required assistance with all activities of daily living.

Observation on March 21, 2011, at 1:30 p.m., and at 2:15 p.m., at the 300/400 nurse's desk; and on March 22, 2011, at 8:35 a.m., and 11:00 a.m., in

F 312 ADL Care Provided for Dependent Residents.

1. Resident #3 toe nails trimmed and finger nails cleaned on 3/23/11.
2. Residents have the potential to be affected.
3. Nursing staff will be in-serviced on nail care by 4/20/11 by the Director of Nursing or designee. A 10% random audit will be conducted weekly x 4 weeks by DON or designee to ensure that residents have received adequate nail care.
4. Audit findings will be reported by the DON to the PI Committee monthly. (PI committee consists of minimally: Administrator, DON, Unit Managers, and SSD). PI Committee will review, discuss and make any necessary revisions or recommendations.
