K 067
NFPA 101 LIFE SAFETY CODE STANDARD
K 067
In order to address air flow in the unit coordinators office, a two zone HVAC unit will be installed with air supply directed to that office.

A three-speed exhaust fan will be installed in the beauty shop.

New duct work will be added from the Administrative Hall HVAC unit to the Family Room and the entrance foyer to increase air return in those areas.

Return visit from Office of Health Care Facilities on September 21st will determine if further action is required including testing and balancing.

Heating, ventilating, and air conditioning comply with the provisions of section 9.2 and are installed in accordance with the manufacturer's specifications. 19.6.2.1, 9.2, NFPA 90A, 19.6.2.2

This STANDARD is not met as evidenced by:
Based on observation the facility failed to assure all areas have the proper air flow.
