**Total Occurrences for Provider Type: Hospital
counting Reported Events from: 01/01/2005 to 12/31/2005 2,179**

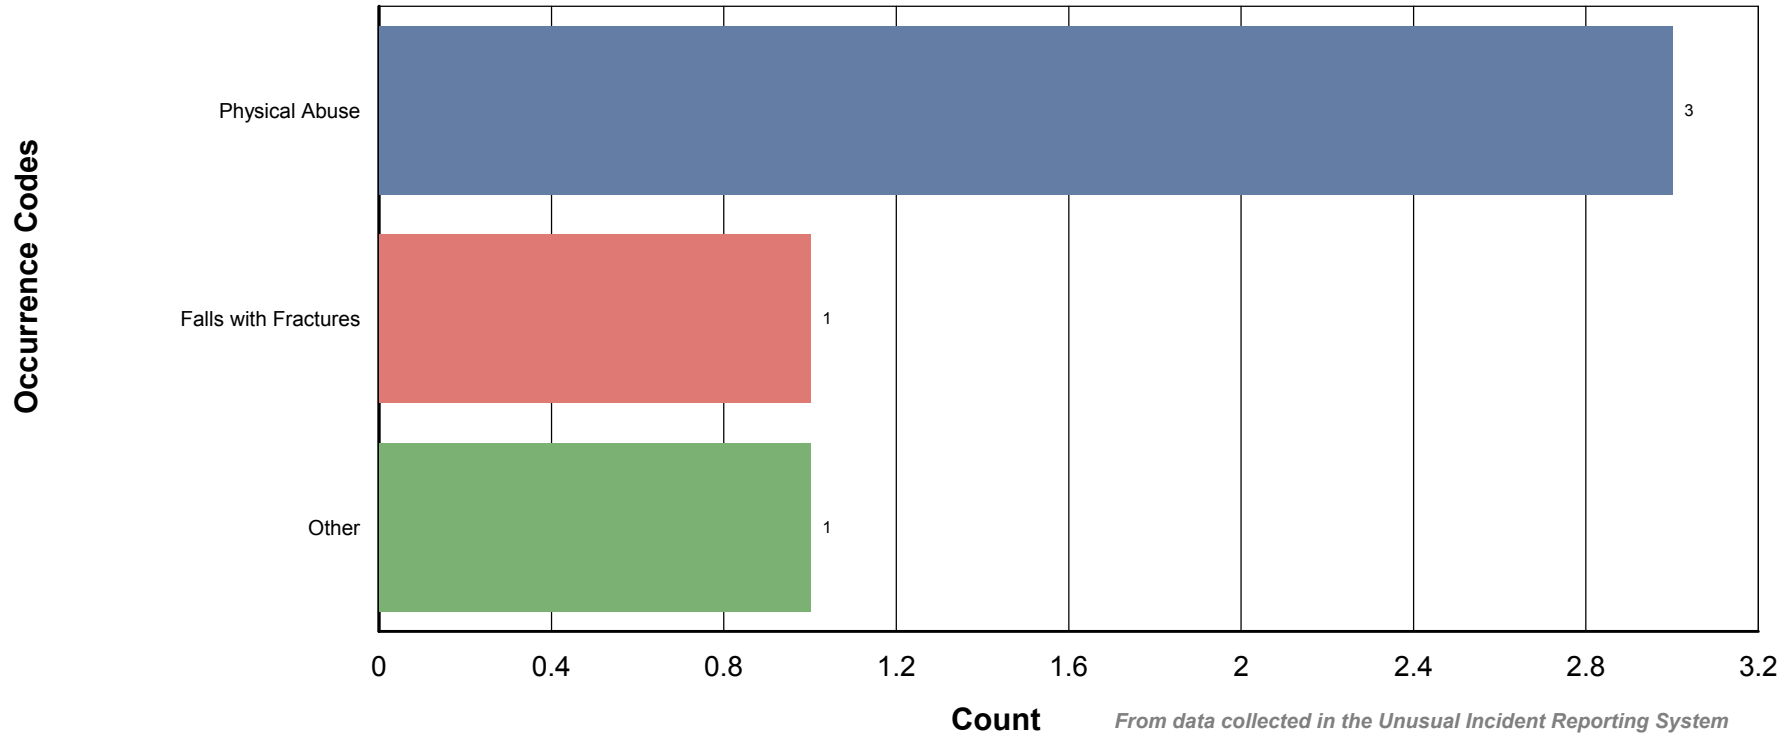

Please note that after a facility reports an event, only those events deemed "reportable" by the state are counted. To be reportable an event must result in patient harm. All "over reporting" is excluded. All events are counted by their report date and not date of occurrence. Only the primary occurrence code on a reported event is counted and secondary codes are ignored on this report. Complete descriptions of the occurrence codes can be found in the *Interpretive Guidelines for Reporting Unusual Events*.

Reported Events from: 01/01/2005 to 12/31/2005
for HCO Prof Support Svcs

Unusual Event Report
