

Newborn Screening Newsletter

June 2006

Newborn Screening/Hearing Staff

The Newborn Screening/Hearing staff consists of familiar names and voices. It is indeed our pleasure to present the photographs of the NBS contacts.

(From L to R) Jacque Cundall, Hearing Director; Sara Guerra, Nurse Coordinator; Pixie Duncan, Educator; Kathy Miller, ASA2, Mitzi Lamberth, Program Director and Nancy Stoxstill, ASA2.

NEWBORN SCREENING VIDEO

The video "Let's Do It Right the First Time" will be available for distribution this summer. The NLTN will provide the instructional design services and utilize qualified technology services for the purpose of developing an interactive CD based training program. The newly developed training program will include approximately 30-35 minutes of educational content consisting of informational screens, audio recording, and video recording with supporting educational resources in a PDF format.

Content will include:

- Overview of Inherited Disorders
- Importance of Specimen Collection
- How to collect the specimen
- Overview of Follow-up

VRS

The Newborn Screening Voice Response System is up and running. The system provides newborn screening results 24 hrs a day, 7 days a week. Letters have been sent to all providers listed in our newborn screening library. Please submit the paperwork by fax once you receive it in order to be added to the system. If you do not receive a letter, please contact Sara Guerra at (615) 262-6483 for access information. You **MUST** have a valid TN Physician License Number in order to gain access to the system.
