

# Tennessee Behavioral Risk Factor Surveillance Survey 2005 State and Regional Weighted Data

During the past 30 days have you had 5 or more drinks on an occasion?

State and Regions	Total Respondents	Five or More Drinks <sup>1</sup>	Weighted Risk <sup>2</sup>	Population at Risk <sup>3</sup>
<b>TENNESSEE</b>	4,690	331	8.6	383,707
<b>Northeast</b>	301	15	6.7	16,947
<b>East</b>	299	18	5.8	30,485
<b>Southeast</b>	278	15	4.6	10,660
<b>Upper Cumberland</b>	302	16	5.5	13,325
<b>Mid-Cumberland</b>	277	22	9.9	63,404
<b>South Central</b>	283	17	8.0	21,017
<b>Northwest</b>	285	18	11.4	21,686
<b>Southwest</b>	290	16	6.1	11,578
<b>Shelby</b>	277	24	10.1	65,591
<b>Davidson</b>	876	87	11.9	54,685
<b>Knox</b>	319	27	11.2	33,762
<b>Hamilton</b>	253	16	9.9	22,751
<b>Madison</b>	307	18	7.4	5,140
<b>Sullivan</b>	343	22	7.1	8,309

<sup>1</sup> Number of respondents who answered YES to consuming 5 or more drinks on an occasion during the past 30 days.

<sup>2</sup> Weighted risk is the estimated percentage of adult population who had 5 or more drinks on an occasion during the past 30 days.

<sup>3</sup> Population at risk is the estimated adult population who had 5 or more drinks on an occasion during the past 30 days. Note: The sum of regional estimates in this column will not add up to statewide total due to incomplete coverage of all demographic groups in every region.
